GUIDE FOR ABSENTEE BIDDERS

All bids must be received 6 business hours prior to the Auction Session. Your Absentee Bid Form should contain bids for one sale only; the sale name and sale number should appear at the top. Please place your bids as early as possible. In the event of identical bids, the earliest bid received will take precedence.

Bidders MUST read through our Terms and Conditions before submitting bids. These terms contain important information regarding our guarantees, billing, shipping, and return policies.

ABSENTEE BIDS

If you are unable to attend the auction in person, and wish to place bids, you may give Goldberg’s bid department instructions to bid on your behalf. Our representatives will try to purchase the lot for the lowest price possible, and will not purchase the lot for more than you indicate. This service is free and confidential. Note: Ira & Larry Goldberg Coins & Collectibles, Inc. offers this service as a convenience to clients who are unable to attend the sale in person, and although we will make every effort, we will not be responsible for error or failure to execute bids.

PLACING ABSENTEE BIDS

To place bids, please use the Absentee Bidder Form provided in this catalog. Be sure to accurately put the lot number and the maximum price you are willing to pay on each lot. Always indicate a top limit or the amount which you would bid if you were attending the auction in person. This amount should not include the buyers commission noted in chapter 16 of the “Terms and Conditions of sale”.

MAIL BIDS

When bidding by mail, you frequently purchase lots for less than your maximum bid. On the floor of the auction, bidding will open at 5-10% above the second highest mail bid: We act on your behalf as the highest mail bidder. If the auctioneer recognizes no other bids from the floor, you will be awarded the lot at the opening bid. If bidding proceeds from the floor, the company, acting as your agent, bids in increments over the previous bid. This process is continued until you are awarded the lot or you are outbid by the floor.

LIMIT BIDDERS

If you have a “limit” that you must stay within you must clearly notate this limit on your bid sheet. We will buy your lots as inexpensively as possible but will not exceed your “limit”.

“OR BIDS”

Alternative bids should be indicated by using the word “OR” between the lot numbers. Then if your bid on an early lot is successful, we will not continue to bid on any other lots for you. Or, if your early bids are unsuccessful, we will continue to execute bids for alternative lots until a bid is successful. Bids must always be placed in the same order as the lot numbers appear in the catalog.

TELEPHONE BIDS

Bids may be placed by telephone, but are accepted only at Ira & Larry Goldberg Coins & Collectibles, Inc. discretion and at the risk of the telephone bidder. **We will not be responsible for error or failure to notify the customer in a timely manner during the auction.** The telephone bidder must notify the company at least 24 hours prior to auction all lots the bidder is interested in bidding on. The telephone bidder should have a preconceived idea of the top limit that he/she would like to bid prior to auction. In some instances, the representative of the company will request this information at the time of auction. This information assists us in the bidding process by giving us a range to stay active in the bidding. We will not notify the auctioneer of your limit and will buy your lot at the lowest price possible.

INTERNET BIDDING

Internet bidding is available via GoldbergLive. **You must be registered with our firm to be able to participate in the internet bidding process.** You may view our online catalogues and bid live on our website. Instructions and details are available online. You must be pre-approved to bid via the web. Please note that network down time or internet speed may interfere with bidding. **All internet bids are executed LIVE on the floor during auction. We cannot stop our auction due to technical difficulties. This service is free and confidential. Standard 17.5% premium.** To log in or bid, please go to goldbergcoins.com. Click the Log in or Bid button at top left.

BUYER’S PREMIUM

The “top limit” you indicate on your bid form is for the hammer price only. Please keep in mind that a buyer’s premium will be added to the successful bid price of each lot you buy and is payable by you, together with the applicable sales tax and shipping charges which is applied to the total cost of your purchase (the total cost includes the buyer’s premium).

SUCCESSFUL BIDS

Successful bidders will be notified and invoiced within a few days of the sale. Prices realized are posted on our website immediately following each session, and are subject to change until the completion of the sale.

TERMS AND CONDITIONS OF SALE

These Terms and Conditions of Sale set forth the terms of a public auction sale conducted in Los Angeles, California by Ira & Larry Goldberg Coins & Collectibles, Inc., a Nevada corporation, California Auction Bond No. 3S95453300 (hereinafter, the "Auctioneer" or "Goldberg"). The Terms and Conditions of sale, the glossary, if any, and all other contents of this catalog are subject to amendment by us by the posting of notices or by oral announcements made during the sale. By participating in any sale, you acknowledge that you are bound by these terms and conditions.

1 This catalog contains the description of property of multiple consignors (the "Consignors"), and may include consignments from Ira & Larry Goldberg Coins & Collectibles, Inc., its principals, and affiliated or related companies and their employees, officers, or principals. All persons seeking to bid, whether in person, through an agent or employee, or by telephone, facsimile or mail, must have a catalogue and register to bid at the auction, either by completing a registration card or by completing the bid sheet incorporated into the catalogue. The Purchaser acknowledges that an invoice describing a lot by number incorporates the catalogue by reference.

2 By submitting a bid, whether in person, by mail, by phone, by facsimile or through an employee or agent, the Bidder acknowledges (i) receipt of the catalogue, (ii) that the Bidder has read the Terms and Conditions of Sale and the descriptions for the lots on which they have bid, and (iii) that they agree to adhere to these Terms and Conditions of Sale. Acceptance of Bids: Anyone wishing to place bids on lots who will not be attending the live auction must submit their bid(s) at least six (6) business hours prior to the auction session. Bidder is responsible for verifying said bids were received by Goldberg.

3 Each Bidder's determination of its bid should be based upon its own examination of the item(s), rather than the grade represented in this Catalogue or elsewhere. In any purchase or sale, the value of the item(s) is determined by the price. THE PURCHASER HEREBY ASSUMES ALL RISKS OF VALUATION CONCERNING ANY AND ALL PURCHASES. All Floor Bidders acknowledge that the Auctioneer can decline to accept bids from the a Floor Bidder who is known to have not, in fact, examined the lot prior to the sale.

4 All material shall be sold in separate lots to the highest Bidder as determined by Auctioneer. If any dispute arises during or immediately after the sale of a lot, Auctioneer shall have the right to rescind the lot offered and put the lot up for sale again. In

all cases, Auctioneer's decision shall be final. For the protection of any Mail Bidder, no "unlimited" or "buy" bids will be accepted. Ira & Larry Goldberg Coins & Collectibles, Inc. shall have the right in its sole and absolute discretion to reject any such bid received. When identical bids are received for a lot, preference is given to the first bid received as determined by the Auctioneer. A mail bid will take precedence over an identical floor bid; a Floor Bidder must bid higher than the highest mail bid to be awarded any lot.

5 Bids must be for an entire lot and each lot constitutes a separate sale. No lot will be broken up unless the Auctioneer determines otherwise. Lots will be sold in their numbered sequence unless Auctioneer directs otherwise.

6 All lots may carry a reserve. For purposes of these Terms and Conditions of Sale, a reserve means a confidential price below which the Auctioneer will not sell an item or will re-purchase on behalf of the Consignor or for the account of Goldberg.

7 The Auctioneer may open the bidding on any lot by placing a bid on behalf of the seller; a Bidder by mail, telephone or facsimile; or any other participant in the sale. The Auctioneer may also bid on behalf of the Consignor up to the amount of the reserve, by (i) accepting bids from floor agents on behalf of the Consignor, or any affiliated or related company of the Auctioneer or the Consignor; (ii) by placing successive or consecutive bids for any lot; or (iii) by placing bids in response to other Bidders.

8 Auctioneer reserves the right, at his sole discretion, (i) to accept or decline any bid, (ii) to accept or decline any challenge to any bid or bidding increment, (iii) to reduce any mail bid received, (iv) to open the bidding of a lot at any level deemed appropriate by the Auctioneer, and (v) to determine the prevailing bid. Bids will not be knowingly accepted from persons under eighteen (18) years of age without a parent's written consent contain

ing an acknowledgment that the Terms and Conditions of Sale herein and indicating their agreement to be bound thereby on behalf of the Bidder.

9 It is unlawful and illegal for Bidders to collude, pool, or agree with another bidder to pay less than the fair value for a lot. Bidders in the sale acknowledge that the law provides for substantial penalties in the form of treble damages and attorneys' fees and costs for those who violate these provisions.

10 Ira & Larry Goldberg Coins & Collectibles, Inc. reserves the right to withdraw any lot at any time, even after the hammer has fallen, until the Purchaser has taken physical possession of the lot. No Consignor who has registered to bid at the sale (or at any other time unless otherwise provided in the consignment agreement), or any Purchaser or prospective Bidder shall have a right to claim any damages, direct, consequential or otherwise, if a lot is withdrawn, even after the sale.

11 GOLDBERG IS NOT RESPONSIBLE FOR ERRORS IN BIDDING. A Bidder should make certain to bid on the correct lot and that the bid is for an amount **(plus the Seventeen and one half percent (17.5%) Buyer's Commission)** that he or she is willing and able to pay. Since other Bidders (by mail, facsimile or other electronic media and in person) will be present, and since a re-offering could damage the momentum of the sale, once the hammer has fallen and the Auctioneer has announced the winning Bidder, such Bidder is unconditionally bound to pay for the lot, even if the Bidder has made a mistake.

12 THIS IS NOT AN APPROVAL SALE. All lots sold to the highest Bidder as determined by Auctioneer are final. Floor Bidders are encouraged to carefully examine all lots which they are interested in purchasing because all sales of items viewed by Purchasers in advance of a sale, even if the sale is by mail, telephone or facsimile, and all lots bid upon by the Floor Bidders, together with all those presenting Goldberg with a **(Continued on next page)**

resale certificate, out of state resale certificate, or similar evidence that they are acting as a dealer ARE FINAL AND SUCH ITEMS MAY NOT BE RETURNED. If the description of any lot in the catalogue is incorrect, the lot is returnable if returned within five (5) calendar days of receipt, and received by Goldberg no later than twenty-one (21) calendar days after the sale date. No return or refund of any auction lot will be considered except by reason of lack of authenticity, unless otherwise provided in these Terms and Conditions of Sale. All lots are sold under the condition that any claims challenging grading, authenticity or methods of manufacture must be made in writing within five (5) calendar days of receipt of material.

All disputed lots must be returned intact as received in their original, sealed and unopened container. Late remittance or removal of any lot from its original container constitutes just cause for revocation of all return privileges for any reason.

13 All prospective Bidders who are allowed the opportunity to examine lots prior to the sale shall personally assume all responsibility for any damage they cause in so doing. Goldberg shall have sole discretion in determining the value of the damage caused, which shall be promptly paid by the prospective Bidder.

14 Title to any lot remains with Consignor, any secured party of the Consignor, or assignee of Consignor, as the case may be, until the lot is paid for in full by Purchaser. Goldberg reserves the right to require payment in full before delivering any lot to the successful Purchaser.

15 It is the Purchaser's responsibility and obligation to have the lots fully insured while in his or her possession. Purchaser assumes any and all RISK OF LOSS once the lot(s) is in Purchaser's possession.

16 **BUYERS COMMISSION of Seventeen and one half percent (17.5%)** will be added to all purchases made by all Purchasers, except Consignors, regardless of Purchaser's affiliation with any group or organization, and will be based upon the total amount of the final bid.

17 Pursuant to a separate agreement with Auctioneer, Consignors or their agents may be permitted to bid on their own lots in the sale and may receive a rebate commission in whole or in part if successful. Under some circumstances, Goldberg may agree with a Consignor (i) not to require the Consignor to pay for all or part of any items bid upon or re-purchased by the Consignor; (ii) when

or where an advance has been made, to have the Consignor pay an agreed upon difference to Goldberg; or (iii) to allow an offset against other transactions with Consignor. Where the Consignor has re-purchased a lot and the lot is either returned to the Consignor or otherwise dealt with or disposed of in accordance with the Consignor's direction, or pursuant to contractual agreement, Goldberg reserves the right to so note in the prices realized or to omit a price from the price realized. Every Consignor who registers to bid in the sale, whether to "protect" a lot, or for any other purpose, agrees to all other Terms and Conditions of Sale per this agreement.

18 Lots must be paid for within 14 days of receipt of invoice or delivery. Unless otherwise agreed in writing, auction sales are strictly cash above \$2,500.00 in U.S. Funds payable through a bank in the United States. Contact Goldberg for wiring instructions before sending a wire. Goldberg reserves the right to decline to release lots for which funds have not yet cleared. Credit card (Visa & Mastercard only) purchases will be accepted on totals not exceeding \$5,000. On any cash transaction or series of transaction exceeding \$10,000, Treasury Form 8300 may be filed.

19 Purchaser agrees to promptly pay, on demand, any sales tax, or any other tax, if required by law to be collected, postage, handling, and shipping insurance **plus the Seventeen and one half percent (17.5%) Buyer's Commission** and any other taxes required by law to be charged or collected, together with any interest or penalty that may be assessed.

20 Purchaser grants to Goldberg or its assigns the right to offset any sums due, or found to be due Purchaser by Goldberg, and to make such offset from any past, subsequent or future consignment, or items acquired by Purchaser in possession or control of Goldberg or from any sums due to Purchaser by Goldberg. Purchaser further grants Goldberg a purchase money security interest in such sums or items to the extent applicable, and agrees to execute such documents as may be reasonably necessary to grant Goldberg such security interest. Purchaser agrees that Goldberg and its assigns shall be a secured party with respect to items bought by Purchaser and in the possession of Goldberg, to the extent of the maximum indebtedness, plus all accrued expenses, until the indebtedness is paid.

21 By bidding in this sale, Purchaser personally and unconditionally guarantees payment. If the Purchaser is a corporation, the officers, directors, and principals of the corporation hereby agree to personally and unconditionally guarantee payment as part

of the corporation's agreement to bid. The authorized representative of any corporate Purchaser who is present at the sale shall provide Goldberg or its agent, prior to the commencement of the bidding (or at the time of registration), with a statement signed by each principal, director and officer that they each personally and unconditionally guarantee any payment due Goldberg.

22 No bids will be accepted from Floor Bidders and Mail Bidders who have not previously established credit with Goldberg unless they first (i) furnish satisfactory credit references or (ii) deposit at least twenty-five percent (25%) of their total bids for that session(s), or such other amounts as Goldberg may require, in its sole and absolute discretion. Any deposits made pursuant to this paragraph will be applied to such Bidders purchases. Any unused portion of such deposit will be promptly refunded upon clearance of the funds.

23 On any accounts past due, Goldberg reserves the right to extend credit and impose periodic charges, pursuant to these Terms and Conditions of Sale or as set forth in the Purchaser's invoice. If the auction invoice is not paid in full when due, the unpaid balance will earn interest at the rate of one-and-one-half percent (1 1/2%) per month until paid. In the event this interest rate exceeds the interest permitted by law, the same shall be adjusted to the maximum rate permitted by law. Goldberg further reserves the right to resell the merchandise, or to have an affiliated or related company do so. Purchaser agrees to pay all reasonable attorneys' fees, court costs and other collection costs incurred by Goldberg or any affiliated or related company to collect past due invoices, including reasonable costs of any resale of the merchandise. Purchaser also agrees to pay the difference between the resale price and any previous disbursements. Money realized from the resale shall be applied as follows: (i) to pay sums due to the consignor, (ii) to pay Goldberg standard commissions and fees for the resale, (iii) to pay Goldberg any sums owed to it by purchaser, and the remainder, if any, will be paid to the Purchaser. Goldberg reserves the right to assign its interest to any third party.

24 Goldberg may at its sole and absolute discretion, make loans or advances to Consignors and/or prospective Purchasers.

25 The Auctioneer may bid for his or its own account at any auction (even though it may not be required to pay a Buyer's Commission, or other charges that other Purchasers may be required to pay) and may have access to information concerning **(Continued on next page)**

the lots and items contained therein that is not otherwise available to the public. Any conflict of interest or claim of competitive advantage resulting therefrom is expressly waived by all participants in the sale.

26 If a dispute arises concerning ownership of a lot that has been bid upon, Goldberg reserves the right to commence a statutory interpleader proceeding at the expense of the Consignor and successful Purchaser and any other applicable party, and in such event Goldberg shall be entitled to its reasonable attorney's fees and costs.

27 In the event of a successful challenge to the title to any goods purchased, Goldberg agrees to reimburse any Purchaser in an amount equal to the successful bid price actually paid by Purchaser at auction plus any Buyer's Commission actually paid, in full and complete satisfaction of all claims, such reimbursement once tendered by Goldberg, relieves and releases Goldberg from any responsibility whatsoever to the Purchaser, even if the instrument is not cashed or is returned.

28 Goldberg reserves the right to postpone the auction sale or any session thereof for a reasonable period of time for any reason whatsoever, and no Bidder or prospective Bidder shall have any claim as a result thereof, including consequential damages.

DISCLAIMERS AND WARRANTIES

ALL ITEMS OFFERED IN THIS CATALOGUE ARE GUARANTEED TO BE GENUINE. THIS IS A LIMITED WARRANTY THAT THE ITEM SOLD IS NOT COUNTERFEIT, THAT ITS DATE OR MINTMARK HAS NOT BEEN ALTERED AND THAT THE COIN HAS NOT BEEN "REPAIRED."

29 Any other warranty is expressly disclaimed; Goldberg offers no representation that a numismatic item has or has not been cleaned; that any toning is natural or artificial; that any coin will meet the standards or grade of any independent grading service; that any item has a particular provenance or pedigree, or that a numismatic item is struck or produced in a particular style. Any statement concerning such matters reflects an opinion only. Questions regarding the minting of a coin as a proof or as a business strike relate to the method of manufacture and not to authenticity.

a The descriptions contained herein represent the Cataloger's good faith opinion, or the opinion of an independent grading service, as to the state of preservation and strike. When a grade from an independent grading

service is utilized, the information is provided strictly for the convenience of the bidder by mail, telephone or facsimile. Bidders and Purchasers acknowledge that (i) grading is an art, not a science; (ii) the grades contained in the catalogue represent the opinion of the Auctioneer based upon its experience; (iii) it is possible that two people will not always grade the same items alike; and (iv) as market conditions change, grading standards change, and will most likely continue to do so in the future.

NO WARRANTY, WHETHER EXPRESSED OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY, IS MADE WITH RESPECT TO ANY GRADE DESCRIPTION, WHICH IS MERELY AN OPINION THAT IS LIKELY TO DIFFER, EVEN AMONG EXPERTS. PURCHASER HEREBY ASSUMES ALL RISKS CONCERNING AND RELATED TO THE GRADING OF A LOT BY AN INDEPENDENT GRADING SERVICE.

b. Grading or condition of rare coins may have a material effect on the value of the item(s) purchased; and the opinion of third parties (including independent grading services) may differ from the independent grading service's opinion or interpretation of Goldberg. Goldberg shall not be bound by any prior or subsequent opinion, determination or certification by any independent grading service.

c. All oral and written statements made by Goldberg and its employees (including affiliated and related companies) are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of Goldberg has authority to vary or alter these Terms and Conditions of Sale. Any alteration shall be effective only if in writing and signed by an officer of Goldberg authorized to do so.

d. Bidders shall have no recourse against the Consignor for any reason whatsoever.

e. Notwithstanding anything to the contrary in these Terms and Conditions of Sale, COINS LISTED IN ANY CATALOGUE GRADED BY PCGS, MAY NOT BE RETURNED FOR ANY REASON WHATSOEVER.

30 By bidding in the sale, (whether in person, by mail, telephone or facsimile, or through an agent), Bidder expressly consents to the following.

WAIVER AND RELEASES

Purchaser, for himself, his heirs, agents, successors and assigns, generally and specifically

waives and releases, and forever discharges Goldberg, and its respective affiliates, parent, shareholders, agents, subsidiaries, employees, members of their respective boards of directors, and each of them, and their respective successors and assigns from any and all claims, rights, demands and causes of action and suites, of whatever kind or nature, whether in law or equity, whether known or unknown, suspected or unsuspected, which Purchaser may claim to have with respect to and/or arising out of, or in connection with any challenge to the title to any good purchased, the sale itself and/or the auction, except for reimbursement in the amount equal to any bid actually paid by Purchaser, plus any Buyer's Commission actually paid by Purchaser where such reimbursement is authorized in these Terms and Conditions of Sale. It is the intention of Purchaser that this waiver and release shall be effective as a bar to each and every claim, demand, cause of action and suit that may arise hereunder, and Purchaser hereby knowingly and voluntarily waives any and all rights and benefits otherwise conferred upon him by the provisions of the California Civil Code, which reads in full as follows:

"A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS WHICH THE CREDITOR DOES NOT KNOW OR SUSPECT TO EXIST IN HIS FAVOR AT THE TIME OF EXECUTING THE RELEASE, WHICH IF KNOWN BY HIM MUST HAVE MATERIALLY AFFECTED HIS SETTLEMENT WITH THE DEBTOR." (continued)

31 Neither Goldberg nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms and Conditions of Sale of the auction or the conduct thereof and in no event shall liability for any such failure exceed the purchase price paid.

32 The sole remedy that any Purchaser in the auction shall have, whether such Purchase is bidding in person, by mail, by facsimile, by telephone, or through an employee or agent, for any claim or controversy arising out of the auction shall be a refund of the original purchase price and premium paid, if any.

33 Upon payment of any disputed sum, which in no event shall be greater than the original purchase price actually paid by Purchaser plus any commission or premium actually paid by Purchaser to Goldberg, Auctioneer and its employees shall be deemed released from any and all claims of the Bidder arising out of or in connection with **(Continued on next page)**

the sale of such property. Purchaser agrees to execute prior to delivery of any refund, any documents reasonably requested to effect the intent of this paragraph. Should the Purchaser decline to do so, Purchaser hereby grants to Goldberg a limited power of attorney to unconditionally effect such release.

34 Rights granted to Bidders and Purchasers under these Terms and Conditions of Sale are personal and may not be assigned or transferred to any other person or entity, whether by operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred on any Bidder or Purchaser by these Terms and Conditions of Sale and terms of warranty. "Purchaser" shall mean the original Purchaser of the property from Goldberg and not any subsequent owner or other person who may acquire or have acquired an interest therein. If Purchaser is an agent, the agency must be disclosed in writing to Goldberg prior to the time of sale, otherwise the benefits of the warranty shall be limited to the agent and not transferable to the undisclosed principal.

35 If the Purchaser fails to comply with one or more of these Terms and Conditions of Sale, then in addition to all other remedies which it may have at law or in equity, Goldberg may at its sole option, either (a) cancel the sale, retaining all payments made by Purchaser as liquidated damages, it being recognized that actual damages may be speculative or difficult to compute, or (b) sell some or all of the property and (some or all other property of the Purchaser held by Goldberg, if Goldberg deems necessary), in a quantity sufficient in the opinion of Goldberg to satisfy the indebtedness, plus all accrued charges. More than one such sale may take place at the option of Goldberg. Such sale may take place without notice to Purchaser. If Goldberg gives notice, it shall be by U.S.P.S. Certified Mail, Return Receipt Requested to the address utilized on the Bid Sheet, Auction Consignment and Security Agreement or other address known to Goldberg. Such sale will be at Goldberg standard commission rates at public or private sale, within California, or at another location outside of California to be determined by Goldberg. At the time of sale the defaulting party shall not bid nor be permitted to bid. The proceeds shall be applied first to the satisfaction of any damages occasioned by Purchaser's breach, and then to the payment of any other indebtedness owing to Goldberg, including without limitation, commissions, handling charges, the expenses of both sales, reasonable attorneys' fees and costs, collection agency fees and costs and any other costs or expenses incurred thereunder. If a lot or

item is not paid for, and is sold by Goldberg for Purchaser's account, in accordance with the Uniform Commercial Code, Goldberg shall not be required to account to the Purchaser for any excess proceeds. Purchaser shall remain liable to Goldberg if the proceeds of such sale or sales is insufficient to cover the indebtedness. If other property of Purchaser is also sold, any excess of proceeds will be remitted to the Purchaser after first deducting the expenses set forth above. If Purchaser fails to remit sums due to Goldberg, Purchaser grants to Goldberg a lien with respect to such sum, with interest to accrue thereon at the legal rate, until actually paid, which lien shall apply against any property of Purchaser, including any future goods of Purchaser coming into possession of Goldberg. To the extent permitted by law, Purchaser hereby waives all the requirements of notice, advertisement and disposition of proceeds required by law.

36 These Terms and Conditions of Sale and the auction shall be construed and enforced in accordance with, and governed by, the laws of the State of California, whether or not the auction is and these Terms and Conditions of Sale are fully performed in California.

37 Purchaser acknowledges and agrees that the competent courts of the State of California shall have exclusive jurisdiction over any dispute(s) arising hereunder, and Purchaser hereby agrees that any dispute arising hereunder shall be litigated exclusively in the courts of the State of California, and not elsewhere, regardless of any party's current or future residence or domicile. Purchaser further agrees that venue shall be in the Superior Court of Los Angeles, in the State of California.

38 **ATTORNEY FEES AND COSTS**
The Bidder/Purchaser shall pay to Goldberg all costs and expenses of collection of amounts due herein, or to otherwise enforce any or all provisions of these Terms and Conditions of Sale, the subject matter of these Terms and Conditions of Sale, or any other agreement entered into with Goldberg, including but not limited to, reasonable attorney fees and costs incurred before legal action, if any, is commenced. The Bidder/Purchaser further agrees that in any litigation or other proceeding based upon, arising out of or related to these Terms and Conditions of Sale, the Bidder/Purchaser shall pay to Goldberg its attorney fees and other expenses and costs incurred in connection with the litigation or other proceeding if Goldberg is the prevailing party.

39 If any section of these Terms and Conditions of Sale or any term or provision of any section is held to be invalid, void, or un-

enforceable by any court of competent jurisdiction, the remaining sections or terms and provisions of a section shall continue in full force and effect without being impaired or invalidated in any way. AS STATED IN THE TERMS AND CONDITIONS OF SALE Certain lots may be reserved by the Consignor. If the Auctioneer identifies a Consignor bidding on his own property, an announcement will be made that the Consignor is now bidding. If the Consignor places a bid in the mail bid book and is successful, the Auctioneer will announce that the lot has been passed.

40 These Terms and Conditions contain the entire agreement and understanding between Goldberg and Bidder concerning the auction and any items bid on or purchased at the auction. Bidder acknowledges that Goldberg has not made any promises, representations or warranty to bidder, not contained herein concerning the auction and any items bid on or purchased at the auction. ■

Estimated Value\$200-UP

Ex Chris Young.

- 339 1788 Connecticut Miller 3-B.1 R5+ Struck over a Nova Constellatio F15.** Choice glossy medium brown with smooth, nearly flawless surfaces. The only mark is a spot of slightly darker reddish brown toning on the T in AUCTION. Nicely centered and well struck with the date and legends all strong. Parts of the undertype host Nova Constellatio (appears to be a 1785 Crosby 4-D variety) are clear on both sides. A very nice example of this tough variety. Weight 110.8 grains.
Estimated Value\$150-UP

Ex Mike Ringo 6/1/1989.

- 340 1787 Massachusetts Half Cent Ryder 4-C Rarity-1 PCGS graded AU58.** Very attractive frosty medium brown and light chocolate with slightly darker steel brown toning on the highpoints of the devices. The shift between impressions was about half a millimeter but the doubling is visible on both sides. Weight 135.2 grains.
Estimated Value\$200-UP

Ex London Coin Galleries 2/7/1991.

Fugio Cents

- 357 1787 Fugio Cent with STATES UNITED Newman 13-X R2 EF40.** Glossy light chocolate brown. The only marks are some shallow planchet fissures or voids on the obverse, as struck. The date is strong and the legends are clear. This die variety was well reresented in the Bank of New York Hoard of mint state Fugio Cents, and this may be from that group. **Removed from a PCGS slab graded AU50** (PCGS label #883.50/06649837 included). Listed on page 88 in the "Redbook."
Estimated Value\$400-UP

HALF CENTS

Flowing Hair Half Cents

- 359 1793 C-4 R3 Liberty Cap facing left VG7.** Very slightly sharper but covered wit uniform extremely fine roughness under rather glossy dark steel and olive brown toning. No verdigris. The only notable mark is a pinch on the rim left of the fraction. LDS Manley state 2.0. The date and legends are complete and clear. Not bad for a lower-grade 1793 Liberty Cap half cent. **Removed from an ANACS slab graded VG8** (ANACS label 895206 included). Weight 101.6 grains.
Estimated Value\$2,000-UP

Ex McCawley & Grellman Auctions/Goldbergs 1/29/2012:47 (lot ticket included).

Liberty Cap Half Cents

- 360 1794 C-1a R3 Liberty Cap facing right VF20.** Large Edge Letters. Five points sharper but there is an old, dull scratch at F-A on the reverse. LDS, Manley state 3.0, showing strong die clashmarks on both sides. Weight 97.8 grains.
Estimated Value\$1,000-UP

Ex Tom Reynolds.

- 361 1794 C-2a R2+ Liberty Cap facing right VF20.** Small Edge Letters. Attractive glossy light to medium chocolate brown and olive. The only notable defect is a small spot of microscopic roughness in the center of the neck, and it is far from significant. Nicely struck EDS, Manley state 1.0, without any die clashmarks. A very nice example of a common die variety; perfect for a date or type set. Weight 105.6 grains.
Estimated Value\$1,500-UP

Ex Tom Reynolds.

RARE 1794 C-2B LARGE EDGE LETTERS

- 362 1794 C-2b R6 Liberty Cap facing right PCGS graded VF20.** Large Edge Letters. Attractive frosty medium chocolate brown and steel. No roughness or verdigris only light contact marks on smooth surfaces. The notable defects are a tiny punch mark well hidden in the ear, a small rim dent at the N in UNITED, and a dull mark just right of the numerator. None of these marks is distracting. LDS, Manley state 2.0, with strong die clashmarks on the obverse. The Large Edge Letters are complete and strong. **Our grade is VF20 sharpness net F15+.** Certainly a condition census example of this very rare variety. The attribution is noted on the PCGS label.
Estimated Value\$10,000-UP

- 363 1794 C-3a R5 Liberty Cap facing right PCGS graded F12.** Small Edge Letters. Glossy medium brown and light chocolate. The surfaces are decent but not perfectly smooth under strong magnification. No verdigris or notable corrosion, only minor contact marks consistent with the grade. A tiny planchet chip on the jaw is the best identifying mark. LDS Manley state 2.0, with a minor bulge in the field right of the date. The date and legends are all readable and the reverse is rotated 65 degrees clockwise from the normal head-to-foot orientation. **Our grade is VG8.**
Estimated Value\$1,000-UP

- 364 1794 C-3a R5 Liberty Cap facing right VG7.** Small Edge Letters. Several points sharper but covered with extremely fine roughness on all but the highpoints, which are smooth. No marks or verdigris. Slightly glossy chocolate brown with lighter brown toning on the devices. The two-tone appearance accents the devices and adds to the eye appeal. EDS, Manley state 1.0, before the small bulge formed right of the date. The date and legends are complete and easily readable. A decent example of this rare variety. Weight 90.3 grains.
Estimated Value\$600-UP

Ex Bob Yuell-Gino Sanfilippo-David Consolo 3/12/2005.

- 365 1794 C-3a R5 Liberty Cap facing right G5.** Small Edge Letters. Misaligned Obverse Die. Sharpness F15 but lightly corroded on all but the highpoints, which are smooth. There are minute traces of reddish scale in some of the protected areas but no verdigris and only a few trivial contact marks. A small rim nick over the second T in STATES is a good identifying mark. The date is weak but readable with some effort while the legends are relatively strong everywhere except along the left edge of the reverse where those details did not strike up. Glossy dark olive with lighter brown and chocolate toning on the highpoints. Struck with the obverse misaligned to K-8 (which caused weakness on the date). Weight 98.8 grains.
Estimated Value\$400-UP

Ex Heritage 2001 FUN Sale, lot 8584-McCawley & Grellman Auctions/Goldbergs 1/29/2012:48 (both lot tickets included).

- 366 1794 C-4a R3 Liberty Cap facing right G6.** Small Edge Letters. Sharpness near F12, perhaps better in some places, but there are small dents or nicks scattered over both sides. A rim dent opposite the chin is the best identifying mark. The planchet is reasonably smooth although microscopic granularity does show in protected areas, especially on the reverse. LDS with heavy swelling in the field left of the lowest curl. The date is strong and the legends are clear except for weakness inside the wreath.
Estimated Value\$300-UP

- 367 1794 C-4a R3 Liberty Cap facing right G5.** Small Edge Letters. Very slightly sharper but there are several dull, very old scratches on both sides, all blending perfectly into the natural toning. No roughness or verdigris. Glossy medium olive brown and steel. LDS, Manley state 4.0, with bold die clashmarks on the obverse and significant swelling at the lowest curls. The date is bold and the legends are clear except for strike weakness at ERICA. Struck with the reverse rotated slightly counter-clockwise. Weight 98.9 grains.
Estimated Value\$300-UP

Ex McCawley & Grellman Auctions/Goldbergs 2/2009:656.

- 368 1794 C-5a R4+ Liberty Cap facing right PCGS graded F12.** Small Edge Letters. Attractive glossy olive brown and chocolate. Smooth surfaces that display only microscopic marks, none notable. EDS, Manley state 1.0. There are no die clashmarks on the obverse and the reverse is rotated 45 degrees CW. The date is bold and the legends are clear. **Our grade is VG8.**
Estimated Value\$1,000-UP

- 369 1794 C-5a R4+ Liberty Cap facing right G6.** Small Edge Letters. Several points sharper with tiny pits scattered over the obverse and specks of greenish verdigris sprinkled over the reverse. A few of the verdigris specks on the reverse have been abraded leaving dull scratches in a few places, but they are visible only under magnification. Mostly glossy medium steel and olive brown. LDS, Manley state 2.0, with die clashmarks on the obverse, a die state considered to be very rare by Manley. The date is bold and the legends are clear. The reverse is rotated 45 degrees CW. Weight 104.3 grains.

Estimated Value\$500-UP

Ex Bowers & Ruddy 11/4/1974:174-unknown-Doug Bird (lot ticket included).

- 370 1794 C-6a R5+ Liberty Cap facing right AG3.** Small Edge Letters. Rather glossy medium olive brown and steel. The devices are mostly smooth while microscopic roughness covers the fields and protected areas. No verdigris, and the only mark is a tiny chip on the rim over the first S in STATES: essentially just well worn. The date is not strong but it is easily readable, and more than half of the legends on the reverse remain visible. Weight 95.2 grains.

Estimated Value\$300-UP

Ex Chris McCawley 12/17/2003-Shawn Yancey-Rod Burrell.

- 371 1794 C-7 R5+ Liberty Cap facing right AG3+.** A couple points sharper but there are two scratches across the obverse on otherwise smooth, choice surfaces. Glossy medium brown and light chocolate. LDS, Manley state 2.0. The radial die crack through the E in UNITED is strong and extends through the wreath. The date is bold and the legends are clear except for weakness inside the wreath due to swelling associated with the late die state. **Removed from a PCGS slab as Genuine, VG Details, Scratch** (PCGS label #35037.95/26432223 included and it shows the attribution). Weight 104.3 grains.

Estimated Value\$400-UP

Ex 2012 EAC Sale, McCawley & Grellman Auctions 5/5/2012:14-Mark Palmer 3/20/2015.

RARE C-8, 1794

- 372 1794 C-8 R5 Liberty Cap facing right VF20.** At least 5 points sharper but there are light contact marks on both sides, mostly on the face and neck. The best identifying mark is a tiny rim bruise over the R in LIBERTY. Rather glossy dark olive brown and steel. LDS Manley state 2.0. The die crack down through the second T in STATES extends through the wreath. The obverse is centered on the planchet while the reverse is misaligned slightly to K-4. A nice example in spite of the minor marks. Ranks among the top 10 known for the variety. Comes with a nice provenance. Weight 105.6 grains.

Estimated Value\$5,000-UP

Ex H. D. Gibbs, New Netherlands Coin Co., 11/28/1952-Robert Schonwalter, Stack's 1/21/2003:1092-Russ Butcher, McCawley & Grellman Auctions/Goldbergs 9/20/2010:660 (both lot tickets included).

RARE C-9, 1794

- 373 1794 C-9 R2 Liberty Cap facing right EF40.** Choice glossy chocolate brown and steel with smooth, very attractive surfaces. A beautiful 1794 half cent; essentially flawless. The only marks are a pair of tiny ticks high on the cheek just right of the ear, and they are not at all distracting. What may appear to be dull rim nicks on the reverse are subtle bumps from the strongly impressed edge letters. M-LDS, Manley state 3.0. The dull die crack from the rim into the cap is strong and clear die clashmarks are visible on the obverse. A great type or date coin. Weight 105.7 grains.

Estimated Value\$5,000-UP

Ex Delaware Valley Rare Coins (Coin World ad) 3/2006-Ray Rouse, McCawley & Grellman Auctions/Goldbergs 9/14/2008:20 (lot ticket included).

- 374 1794 C-9 R2 Liberty Cap facing right VG7.** Sharpness F15 but dark and covered with fine to moderate roughness under rather glossy dark olive brown and steel toning. No verdigris. The only notable mark is a light rim bruise left of the lowest curl. E-MDS. The die crack from the rim to the left side of the cap is faint. The date and legends are complete and clear.
Estimated Value \$400-UP

- 375 1795 C-2a R3 Punctuated Date, Lettered Edge G5.** Struck on a thick planchet. Glossy medium olive brown and steel. Smooth and attractive for the grade. The only mark is a rim bruise over the R in LIBERTY. LDS, Manley state 3.0, with strong swelling at AMER. The date is strong and the comma punctuation between the 1 and 7 is clear. Weight 95.8 grains.
Estimated Value \$400-UP

- 376 1795 C-5a R3 No Pole VF20.** Sharpness EF45 but covered with fine roughness under slightly glossy dark olive brown and chocolate toning. No verdigris and the only notable marks are a sharp rim nick over the B in LIBERTY and a pair of thin nicks hidden in the hair left of the ear. MDS. The date is not strong but it is easily readable, and the legends are clear. 86.9 grains.
Estimated Value \$1,000-UP

Ex Greg Hannigan 2/2/2012.

- 377 1795 C-6b R5+ Thick Planchet G6.** A couple points sharper but there are several very light rim bruises around both sides. A rim bruise before the neck and bust has been very lightly smoothed to minimize its impact. Similar smoothing was done to a small rim bruise over CA in AMERICA. Otherwise the planchet is quite decent with a minimum of marks or other defects. Mostly glossy reddish chocolate brown and steel, possibly lightly cleaned and retoned. The date is complete and easily readable but not strong, which is typical for these thick planchet strikes. The legends are clear except for some weakness on HALF CENT. Weight 115.1 grains most likely on a planchet cut from a spoiled large cent. Manley lists a weight range for the thick planchet versions between 100 and 124 grains (versus the thin planchet standard of 84.0 grains), so this one is on the heavier end of that scale. A decent example of this tough variety.
Estimated Value \$1,000-UP

- 378 1797 C-1 R2 1 Above 1 variety PCGS graded XF40.** Very attractive glossy olive brown and chocolate with slightly lighter steel brown toning on the highpoints. Smooth and nearly flawless, just lightly worn. The notable marks are a pinprick in the field close before the eyebrow and another in the field left of the lower end of the cap. Nicely struck E-MDS, Manley state 2.0. There is a minor bulge in the field left of the L in LIBERTY, a die crack down through the B in LIBERTY into the head, and another fine crack connecting the end of the pole to the dentils below. **Our grade is VF25 and nearly choice.** The 1 Above 1 feature is noted on the PCGS label.
Estimated Value \$2,000-UP

Ex James E. Long.

1797 C-1 WITH PARTIAL EDGE LETTERING

- 379 1797 C-1 R2 1 Above 1 variety F12.** Struck over a 1795 Talbot Allum & Lee Cent. A few points sharper but there is a planchet chip in the field left of the bottom of the cap (as struck), and traces of microscopic roughness very well hidden in the hair right of the cap. Otherwise the surfaces are smooth and very attractive, choice for the grade. MDS, Manley state 3.0, with swelling and die cracks on the obverse. This piece was struck on a cut-down 1795 TAL Cent. Traces of the undertype are visible left of the date. In addition there are two letters from the TAL Cent edge lettering clearly visible on the edge left of the date. The "EN" from CENT in "WE PROMISE TO PAY THE BEARER ONE CENT" is present, and this edge lettering is limited to 1795-dated examples of TAL Cents. The half cent planchet was cut just a bit too close to the edge of the TAL CENT. A very rare "error." Weight 77.0 grains.
Estimated Value \$800-UP

Ex Tom Reynolds.

- 380 1797 C-1 R2 1 Above 1 Variety VG7.** Struck over a 1794 Talbot Allum & Lee Cent with New York. Glossy chocolate brown and steel. No roughness or contact marks. Very late die state (VLDS), Manley state 5.0 late. The details are uneven thanks to a shattered obverse die and the effects of undertype designs still visible from the TAL Cent. The date is clear, including the errant 1 over the normal 1, but ERTY and portions of the reverse legend are missing due to the effects of significant die failure. Parts of NEW YORK and ship's rigging from the TAL cent are clearly visible at the top of the obverse. Weight 92.6 grains.

No verdigris, and the only notable marks are a small, dull dig under the F in OF and a thin planchet fissure slanting through the M in AMERICA (as struck). 498 1796 S-98 R4 Draped Bust G6. Mostly glossy chocolate brown with darker steel and olive brown toning in the fields and protected areas. No corrosion or verdigris, and the only marks are a few dull, light nicks on the upper part of the neck and jaw. The reverse is a few points sharper than the obverse, which is normal for many of the 1796 Draped Bust varieties due to the absence of a protective rim on the obverse. The bottom of the date is starting to flow into the rim but it remains easily readable. The legends on the reverse are complete and clear.

BEAUTIFUL DOUBLE STRUCK 1803 S-261

593 1803 S-261 R2 Small Date, Large Fraction, Double Struck NGC graded XF40. Attractive frosty medium chocolate brown and steel. Smooth and free of any trace of corrosion or verdigris. Only a few minor contact marks, including a dull diagonal nick under the chin that can help identify this cent. MDS Breen state IV, with buckling at the lowest curls in addition to the earlier die crack that arcs from the rim under the date through the shoulder, hair, and lower end of the hair ribbon to the dentils off to the left. This cent was struck two times, both strikes reasonably well centered on the planchet. The second strike was against the reverse die with a 15 degree CW rotation between the impressions, but the obverse was struck against a new blank planchet during the second impression (thereby creating an obverse brockage impression on the second planchet). Sharp doubling shows on all the devices on the reverse while the obverse displays the characteristic wavy swelling that is associated with having been struck against a blank planchet. In addition the blank planchet was positioned slightly off center and left behind a depression along the dentil tips over LIBERTY. A beautiful example of a new mint error. **Our grade is VF20.** The "Mint Error" and "Double Struck with Reverse Rotation" features are on the NGC label along with the attribution and Mervis provenance.

POSSIBLE UNIQUE DIE STATE

797 1847 N-3 R3 Repunched Date PCGS graded MS61 Brown. Frosty medium steel brown and light chocolate. Satiny luster shows in protected areas and this cent has nice eye appeal, but there are some contact marks. The notable ones are a pair of thin nicks on the cheek, a dull rim nick over the right side of the first T in STATES, and a dull scratch that skips across the devices from the C in AMERICA to the N in ONE. M-LDS, die state d/e. There are clearly defined rim cud breaks at ST and above the O in OF, but the usually seen rim cud at ER in AMERICA is not present. A close examination reveals no trace of this third rim cud, but the rim in that area is relatively narrow due to a slight shift in die alignment so certainty is elusive. Logic dictates the three cuds should not have formed at the same time, but a definitive example with less than 3 cuds has not been seen. Careful examination is recommended. **Our grade is AU55 sharpness net EF45.** The attribution is noted on the PCGS label. **PCGS population 1; 5 finer: 3 in 64, 2 in 65.**

- 873 1853 N-31 R4+ PCGS graded MS65 Red & Brown.** Very attractive lustrous mint red fading to bluish steel brown and light olive. About 15% of the mint red remains visible on the obverse and nearly a third of the reverse retains mint color. No spots or stains, but there are a few contact marks. The only significant mark is a dull diagonal nick high on the cheekbone near the hair. The other notable marks are a small planchet flake in the field off the chin and a thin struck-through line that meanders down into the dentils at star 13 (both as struck). The reverse is choice. MDS, die state b. The die lines from the dentils at RI in AMERICA are dull but visible and the fields on both sides display fine radial flowlines, strongest on the reverse. **Our grade is MS62+, very close to MS63, and CC#3 in the Grellman census. - 877 1854 N-9 R2 "Dartboard Obverse" PCGS graded MS64+ Brown.** Lustrous light olive brown and steel with faded mint red covering 10% of the obverse, 40% of the reverse. A very attractive cent. The only defect is a faint spot of slightly darker toning at the right corner of the eye, and this spot contains microscopic traces of carbon. The reverse is flawless. MDS, die state b, showing die clashmarks on both sides and a very shallow low spot on the cheek and neck (low spots caused by debris on the die are almost always present on this variety regardless of the die state). The stray 1 that was punched into the right side of the ear is clearly visible, and a portion of the top of the 8 is also visible off the right foot of the Y in LIBERTY. Apparently the person responsible for adding the date to this obverse die decided to test the punches in the center of the die, thereby creating the "Dartboard Obverse" variety. **Our grade is MS62+ close to MS63**, and tied for CC#2 in the Grellman census. 1250 Undated "Time Increases His Fame" - Washington medal. Baker-91D, Julian-PR-27. NGC graded MS-63 Brown. Red bronze, 27 mm. These medals were struck after 1861 with the obverse die prepared by William Kneass, U.S. Mint chief engraver from 1824 to 1840. The reverse die was engraved around 1860. Rarely offered and quite attractive.

1251 1859 Washington "Pro Patria" Medal. Baker-268A. NGC graded MS-65 Red & Brown. Copper, 31 mm, first obverse with reeded edge. A pretty successful portrait of Washington and straightforward design by Robert Lovett. The medal was ordered by Philadelphia coin dealer Edward Cogan, and was issued in silver, copper, bronze, and white metal. According to the catalog, this first obverse die was stolen on December 14, 1859, and therefore making this type more interesting. Perfectly struck with prooflike surfaces on both sides. A needle sharp example with original violet-fiery toning.

OUR AUCTION GALLERY

SMALL CENTS

Flying Eagle Cents

- 1339 1857. PCGS graded MS-64 PQ. CAC APPROVED.** Nice even toning with light copper hues throughout. The strike is bold on all the central devices, as well as the dentils on the obverse and reverse. The Flying Eagle cent first appeared in 1856 in limited numbers, but most Americans first saw them in 1857 when they were widely released. This one was set aside from the time of issue and still looks quite fantastic. (PCGS # 2016)

Estimated Value\$950 - 1,000

- 1340 1857. PCGS graded MS-64.** Lightly toned with just one small carbon speck on the reverse, and the strike is crisp and bold. A splendid example of this short lived type coin. (PCGS # 2016)

Estimated Value \$900 - 950

- 1341 1858. Large letters. NGC graded MS-64.** Rich golden colors with abundant luster and much of the original mint color intact. The strike is decent and the surfaces are free of all but minor signs of contact.

Estimated Value \$600 - 650

Indian Head Cents

- 1343 1859. NGC graded MS-65.** Well struck and nicely toned. This is a one year type coin because the design was changed in 1860 to modify the wreath and add a small shield at the top. These first year of issue 1859 cents are scarce in Gem and this one is quite attractive. Housed in an Old Style Holder. **Pop 158; 12 finer, 1 in 65+, 10 in 66, 1 in 67.**

Estimated Value\$1,900 - 2,000

GEM PROOF 1861 INDIAN HEAD CENT

- 1344 1861. NGC graded Proof 66.** Only 1,000 minted. Lovely light toning and boldly struck on each and every device. The toning is a pale blend of purple iridescence with just a few traces of carbon. Clearly this is one of the finest examples to survive in Proof, and is destined for a high end date collection of Indian cents in Proof. A fantastic example! **Pop 6; 2 finer, 1 in 66 Star, 1 in 66+.** (PCGS # 2256)

Estimated Value \$6,500 - 7,000

Estimated Value \$500 - 550

- 1346 1862. NGC graded MS-65.** Nicely toned. A few deeper areas, but most of the surfaces are bright and fresh. Estimated Value \$700 - 750

The surfaces and color are quite nice, with strong original mint red still present despite moderate fading. This is the first appearance of the French bronze composition, which was used through the end of this series. **Pop 248; 75 finer, 1 in 65+, 69 in 66, 5 in 67.**

1909-S INDIAN HEAD CENT

Enlargement

- 1363 1909-S. PCGS graded MS-65 Red. CAC APPROVED.** Nice mint red on both sides of this low mintage rarity. Only 309,000 pieces were struck, and this is one of the nicer examples known today. Most have faded in color and show far more evidence of handling. This is the lowest mintage of the Indian cent series, but enough were saved that they can be obtained with patience for a price. Lincoln Cents

- 367 1909. NGC graded Proof 64 Red. PQ.** Lovely red colors with a hint of pastel iridescence and just a touch of carbon on the lower left reverse. This is the first year of issue of the Lincoln cent and a particularly handsome coin to represent this issue. Housed in an Old Style Holder. Only 2,618 struck. **Pop 18; 36 finer, 26 in 65, 8 in 66, 1 in 66+, 1 in 68.**
Estimated Value \$850 - 900

- 368 1909-S. VDB. PCGS graded MS-65 Red.** Well struck and fully red. Popular key date which is seldom found with the combination of Gem surface quality with full mint Red! Only 484,000 were struck at the San Francisco Mint before it was determined that designer's initials V.D.B. (for Victor David Brenner) were too prominent on the lower reverse and should be removed. Historically, coin designer's here had not really signed their work in this fashion (think Gobrecht on the 1836 silver dollars) and such a visible statement of artistry was frowned upon. It is interesting to note that a few years after 1909 the engraver Brenner died, and his initials were restored (but much tinier) on the lower edge of Lincoln's shoulder. Thus the 909-S V.D.B. has remained one of the most sought-after Lincoln cents virtually from the time these were struck, with their popularity growing year after year with each successive generation of collector. **(PCGS # 2428)**
Estimated Value \$3,500 - 4,000

- 369 1909-S. VDB. PCGS graded MS-64 Red. CAC APPROVED.** Lovely mint red toning. A popular key date that offers strong mint red throughout and clean surfaces. Estimated Value \$1,700 - 1,800

- 1370 1909-S. VDB. PCGS graded MS-65 Red & Brown. CAC APPROVED.** A gorgeous looking example! Estimated Value \$1,000 - 1,100

- 1373 1909-S, S Over Horizontal S. PCGS graded MS-66 Red.** Lovely rich golden toning. The S over horizontal S mintmark is best seen with a strong loupe, where an additional sideways serif appears in the field just right of the center of the broad curve of the primary S. Not that many exist in high grade, and this is one of finer pieces known with full Mint Red and outstanding quality surfaces. A prize for the Lincoln cent specialist who appreciates high end coins **Pop 67; 6 finer in 66+.** **(PCGS # 92434)**
Estimated Value \$1,200 - 1,300

- 1374 1910-S. NGC graded MS-65 Red.** Boldly struck and golden-red. Most of these early Lincoln cents faded to brown long ago, so finding one with the full original Red is quite a treat. Scarce and desirable at the Gem grade. **Pop 126, 49 finer.**

Estimated Value \$1,200 - 1,250

- 1385 1977. NGC graded Mint Error AU-55. 1¢ struck on a 10¢ blank. 2.3 grams.** A scarce mint error and this one is nearly Mint State, but apparently escaped into circulation for a brief time. Estimated Value \$500 - 600
- 1386 A Set of Lincoln Cents 1909-1940.** The coins are mounted in an old coin board. **Missing the 1909-S VDB, 1922 No D, and the 1925-D.** Lot of 89 coins.

- 1387 1876. PCGS graded Proof 66 Deep Cameo PQ. CAC APPROVED.** A fully white gem Proof with great contrast and outstanding surfaces. Liberty Nickels

- 1391 1883. Without "CENTS". PCGS graded Proof 67 PQ. CAC APPROVED.** Lovely rainbow toning on both sides with golden russet, with a few traces of rose and crimson. This one is decidedly one of the finest known of this important first year of issue in Proof, not only technically, but with such stunning toning it is undoubtedly one of the most desirable around today. The original Proof mintage came in at only 5,219 for this initial style. After a few months of production of the new Liberty nickel design, the reverse design was modified to include the word "CENTS" below the large V as certain folks had taken some of these new nickels and gold plated them, in order to pass them off as \$5 gold pieces to the unsuspecting! A fabulous example of this popular issue. **Pop 6; 1 finer in 67+.** (PCGS # 3878)
Estimated Value \$3,500 - 3,700

HIGHEST GRADED 1886 LIBERTY NICKEL

1392 1886. PCGS graded Proof 67+. CAC APPROVED.

Wonderful toning graces both sides of this superb gem example that is not only technically the finest seen by PCGS of this Proof issue, but one that has exquisite toning! If you want the absolute finest, the best, and unsurpassed, then take a look at this one, the colors will multiply your bid accordingly! A coin that should bring a strong premium due to the technical qualities as well as the remarkable eye appeal. **Pop 1; none finer at PCGS . (PCGS # 3884)**

Estimated Value \$9,000-UP

1393 1886. PCGS graded MS-63. A nice white coin. Scarce date and tough to find this nice. Notice the bold strike too as well as the attractive surfaces. (PCGS # 3847)

Estimated Value \$1,500 - 1,600

1394 1896. PCGS graded Proof 65 Cameo. Only 1,862 minted. Lovely rich golden toning over boldly mirrored fields and frosted devices. **Pop 10; 21 finer . (PCGS # 83894)**

SUPER GEM 1912 LIBERTY NICKEL

1396 1912. NGC graded Proof 68. CAC APPROVED. Well struck and untuned. A near perfect coin with nicely frosted devices and incredible fields that lack any signs of handling- so unusual on one of these early Proof nickels. It would be hard to even imagine a finer example, and deservedly tied with just a few others at this lofty grade. Only 2,145 struck. **Pop 3; 2 finer in 68 Star.**

Estimated Value \$5,500 - 6,000

1397 1912. PCGS graded MS-66. Lovely toning on both sides and fairly sharp. The surfaces are quite fresh and attractive, with virtually no nicks or marks to distract the eye. A condition rarity at this grade level. **Pop 32; 1 finer in 66+. (PCGS # 3873)**

1398 1912-D. PCGS graded MS-65. Well struck with nice even toning and a tough issue to find in Gem condition. This is the first Denver branch mint nickel coin issued. **Pop 159; 49 finer, 11 in 65+, 35 in 66, 3 in 66+. (PCGS # 3874)**

Estimated Value \$1,200 - 1,300

Buffalo Nickels

1937-D BUFFALO NICKEL. 3 LEGS

- 1399 1937-D. 3 legs. PCGS graded MS-64.** A nice example of this popular Red Book variety. The strike is sharp with a full horn on the bison, and the surfaces are free of all but minute handling marks. The diagnostic stream of dots beneath the belly of beast is present, and the moth-eaten appearance of the hind legs of the bison are noted. This die was really messed up! Of course, the all important foreleg of the bison is missing from the top of the shoulder down to his lonely hoof on the ground. A tough variety to find this nice. **Pop 178; 70 finer at PCGS. (PCGS # 3982)**
Estimated Value\$5,000 - 5,500

Jefferson Nickels

- 1400 1945-P Doubled Die Reverse. PCGS graded MS-66.** Nice light toning on both sides with lemon yellow at the rims, then teal blue, fading to light gold over lustrous surfaces. Estimated Value\$900 - 1,000

HALF DIMES

Flowing Hair Half Dimes

LOVELY 1795 FLOWING HAIR HALF DIME

Enlargement

- 1401 1795. PCGS graded MS-64.** Only 1,750 examples are estimated to have survived. Well struck with attractive toning of deep blue and russet around the rims, lighter silver centers. The strike is bold on Liberty's hair curls, and the eagles shows his wing feathers well. Trace adjustment marks are noted on the reverse, but the power of the strike nearly obliterated them. An important type coin which is rarely found this well preserved and seldom any finer. **Pop 23; 25 finer. (PCGS # 4251)**
Estimated Value\$19,000 - 20,000

1795 FLOWING HAIR HALF DIME

Enlargement

- 1402 1795 LM-10, R-3. PCGS graded AU-50.** Nice blue and gold toning. The surfaces show a few small marks when closely examined, as one would expect even after limited circulation. This is a plentiful die pairing and a good many examples have the die cud that formed to the tops of the TY and ninth star to the rim above. Most of these early half dimes circulated hard and long, and this series remains one of the most challenging to find wholesome coins to represent this issue. So many of these tiny coins were damaged or bent from the original mintage that collectors have to look long and hard to find one that is acceptable. This example is quite outstanding and will certainly please any numismatist. Only 1,750 examples are estimated to have survived. **(PCGS # 4251)**
Estimated Value\$5,500 - 6,000

Capped Bust Half Dimes

Enlargement

- 1403 1829 LM-2, Rarity-1. PCGS graded MS-65.** A nice white coin that offers a solid strike and attractive surfaces. These early Capped Bust half dimes are tough to find this well preserved! **Pop 28; 13 finer, 9 in 66, 3 in 67, 1 in 67+. (PCGS # 4276)**
Estimated Value\$2,000 - 2,500

Seated Liberty Half Dimes

GEM 1837 LIBERTY SEATED HALF DIME

Enlargement

- 1404 1837/1837. Large Date, VP-001. NGC graded MS-67.** Lovely rainbow toning on both sides with deeper blues and russets around the rims, brighter at centers. The strike is bold and the surfaces are free of any scuff worthy of note. The date is repunched low and this is somewhat careless, considering that this was the first year off issue for the new designs by Christian Gobrecht. After these were released, it was determined that stars should be added to the obverse, which was done in 1838 on all but a modest number of New Orleans half dimes which continued in the original No Stars style. **Pop 1; none finer at NGC for the variety.**

Estimated Value \$9,000 - 10,000

1838 LIBERTY SEATED HALF DIME

Enlargement

- 1405 1838. Large Stars. NGC graded MS-67. CAC APPROVED.** Nicely toned with golden russet and blue, with satiny silver centers. The devices are well struck and crisp. This is the first year of the with stars design, the stars being added after 1837. **Pop 21; 9 finer, 2 in 67 Star, 2 in 68, 5 in 68 Star.**

Estimated Value \$5,500 - 6,000

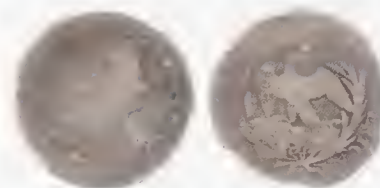

Enlargement

- 1406 1858. V-4A. ANACS graded Proof 64.** Lovely blue and gold toning from long album storage. Only 100 struck in the Proof format and this one is quite attractive. The surfaces are excellent, and the toning is rich and elegant. Housed in an Old Style Holder.

Estimated Value \$1,100 - 1,150

DIMES

Draped Bust Dimes

- 1407 1797. JR-1, Rarity 4. PCGS graded Fair-2.** A tough type or date to find, as far fewer 1797 dimes seem to exist when compared with those of 1796 which is the only other year with the Small Eagle reverse style. This one has the usual heavy die crack at the date, which adds interest to collectors. The reverse and obverse actually retain more detail than one would expect for the grade assigned. An important coin that should not be overlooked! Only 25,261 struck. **(PCGS # 38748)**

Estimated Value \$700 - 750

CHOICE 1807 DRAPED BUST DIME

Enlargement

- 1408 1807. JR-1, Rarity 2. NGC graded MS-64.** Lovely rainbow toning on both sides organized in concentric circles. Both dies show strong evidence of clashing as usually found on 1807 dimes. These were minted in large numbers from dies that held together amazingly well, despite clashing multiple times and impressing the designs into the opposing die! This became the final year of issue of the Draped Bust, Heraldic Eagle design, and collectors of all sorts desire to own an example, especially one in such high grade and noted here. **Pop 22; 17 finer, 14 in 65, 2 in 66, 1 in 67.**

Estimated Value \$15,000 - 16,000

Capped Bust Dimes

- 1409 1831. PCGS graded MS-63. PQ.** Lovely light gold toning with considerable white frost on Liberty and clean surfaces for the grade assigned. **Pop 45; 71 finer at PCGS. (PCGS # 4520)**
Estimated Value \$1,700 - 1,800

Seated Liberty Dimes

GEM PROOF 1854 LIBERTY SEATED DIME

Enlargement

- 1410 1854. PCGS graded Proof 64+.** Well struck and nicely toned on both sides with deep and colorful iridescence on the obverse, the reverse with more russet gold hues. This is an important type coin with the Arrows at the date, and these were issued only from 1853 through 1855. Proof mintages for the Arrows coins were extremely limited and all examples are rarities today. It is believed that only 15 examples minted and that perhaps 10 exist today in all grades. This example is clearly one of the finer pieces known today and a coin that would be a welcome addition to any advanced collection. **Pop 1; 3 finer in 65. (PCGS # 4743)**
Estimated Value \$9,000 - 10,000

GEM PROOF 1856 LIBERTY SEATED DIME

Enlargement

- 1411 1856. NGC graded Proof 66 Cameo.** Lovely blue and lilac toning spans both the obverse and reverse of this amazing coin. First off, only 50 pieces are believe to have been minted. From that modest beginning there are around 35 known today. This is one of the finer examples seen, and one of just a handful that offer the Cameo contrast between the mirror fields and frosted devices. The strike is absolute and precise, with all of the finer nuances of the design crystal clear when examined. The surfaces are also incredible in their preservation, with no distracting nicks or handling marks, and the toning is stunning to see. All Proof 1856 dimes have the Small Date, and these Proofs are all rare and desirable, especially this well preserved. **Pop 5; 1 finer in 68.**
Estimated Value \$11,000 - 12,000

- 1412 1856. Small date. NGC graded MS-64. PQ.** Mostly white on the obverse with peripheral russet while the reverse offers deeper toning with light blue and gold toning around the edges. **Pop 13; 9 finer, 5 in 65, 3 in 66, 1 in 67.**
Estimated Value \$650 - 700

GEM PROOF 1857 LIBERTY SEATED DIME

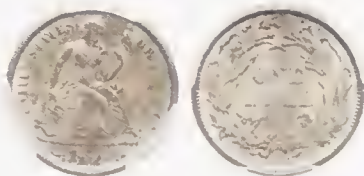

Enlargement

- 1413 1857. NGC graded Proof 67.** Boldly struck with lovely blue toning on both sides. Only 70 examples minted and this one is tied with a couple of others as the finest seen by either grading service. The eye appeal is stunning, first off because of the towering quality of the surfaces, secondly by the amazing toning which is quite attractive. An extremely desirable example of this prized early Proof coin. **Pop 3; none finer at NGC.**
Estimated Value \$9,000 - 10,000

- 1414 1858-S. PCGS graded AU-53. PQ.** A nice untoned coin. Only 60,000 struck and perhaps 300 survive today and almost all of those are in far lower grades than seen here. A connoisseur's delight for the quality of the surfaces and general visual appeal. **Pop 2; 14 finer at PCGS. (PCGS # 4618)**

Estimated Value\$1,500 - 1,600

- 1415 1873-S. Arrows. PCGS graded MS-64.** Lightly toned and well struck. This is a scarce date and always popular for the elusive type with the Arrows at date. Close to the Gem level and worth a strong bid. **Pop 18; 3 finer, 1 in 64+, 2 in 65. (PCGS # 4667)**

Estimated Value\$2,300 - 2,500

- 1416 1875-CC. Mint Mark Above Bow. PCGS graded MS-64.** Toned on both sides with soft golden iridescence. There are two deeper toning spots on DI of DIME. Scarce this nice and always in high demand for the Carson City mintmark. **Pop 48; 28 finer. (PCGS # 4673)**

Estimated Value\$450 - 500

- 1417 1883. PCGS graded MS-65 PQ. CAC APPROVED.** Housed in an Old Green Holder. Lovely iridescent toning on both sides and well struck by the dies. Very choice. **Pop 75; 75 finer. (PCGS # 4691)**

Estimated Value\$500 - 550

- 1418 1887. PCGS graded MS-66. CAC APPROVED.** Housed in an Old Green Holder. Light blue toning on both sides and sharp. A condition rarity this well preserved, despite a rather generous mintage for this era. **Pop 28; 6 finer, 2 in 66+, 4 in 67. (PCGS # 4698)**

Estimated Value\$700 - 750

Barber Dimes

Estimated Value\$1,800 - 1,900

- 1420 1899-O. PCGS graded MS-65.** Lovely toning. This is a scarce date and grade for the New Orleans Mint, with a production for the year of 2,650,000 pieces. Few were saved as is evident in the Population figures below, and this is certainly one of the finer examples around today. Great color and surfaces! The holder has been scratched. **Pop 5; 16 finer, 14 in 66, 2 in 67. (PCGS # 4819)**

Estimated Value\$2,800 - 3,000

QUARTERS

Draped Bust Quarter Dollars

- 1434 1804 PCGS graded Genuine Good Details.** Plugged. A scarce date. Merely 387 examples are estimated to have survived out of the 6,738 pieces that were originally minted. The obverse exhibits even wear while the reverse shows more significant wear to the lower half of the coin. This is a scarce issue and one that has been in feverish demand for well over a decade as more collectors realize how rare these are. (PCGS # 5312)

Estimated Value\$1,000 - 1,100

- 1435 1806. B-10, Rarity 5. NGC graded AU Details, Improperly Cleaned.** We like this coin, it looks really nice with a mix of light gold to russet toning on both sides. The strike is sharp and the surfaces are otherwise pleasing in terms of handling marks or bumps, there are no distractions! Still a scarce variety and a coin which is difficult to locate at this grade level.

Estimated Value\$2,500 - 2,700

Seated Liberty Quarter Dollars

- 1436 1850. PCGS graded MS-64.** A nice white coin with just a touch of pale gold near the rims. This is the repunched date variety with the base of the 1 misplaced well south down on the flat rim of the coin. A popular variety with collectors as such. Furthermore, despite a rather generous mintage, the vast majority of this issue was melted in the next few years, as the price of silver jumped up in relation to gold due to the gold discoveries in California in that period. This puts high demand on all 1850 quarters when they come to market, especially true when a Mint State coin like this is available. **Pop 3; 2 finer, 1 in 65, 1 in 67. (PCGS # 5415)**

Estimated Value\$3,200 - 3,400

PROOF 1856 LIBERTY SEATED QUARTER

- 1437 1856. PCGS graded Proof 64.** A hint of light gold tone. Only 30 examples have long been believed to have been minted, but that number may be too low as roughly double that number appears in the population data of PCGS and NGC. What is known is that these are tough to find today, and while a few more may be been struck than traditionally believed, that does not diminish the desirability of this lovely coin. One other point of interest is noted here, that is the Proof reverse die suffered some sort of injury and was repaired, evidence can be seen both above and below the right wing of the eagle, and all Proof 1856 quarters examined show these unusual heavy die polishing lines. **Pop 8; 3 finer in 65. (PCGS # 5552)**

Estimated Value\$5,500 - 6,000

CHOICE 1857-S LIBERTY QUARTER

- 1438 1857-S. PCGS graded MS-64.** A white coin with mirror surfaces on both sides. Only 82,000 struck and Mint State examples are rarely seen or offered. This one is tied with the finest seen by PCGS of this prized date, and as such is a true specialist's coin. The Large S mintmark is clear, and the strike is bold throughout. An important condition rarity! **Pop 4; none finer at PCGS. (PCGS # 5444)**

Estimated Value\$8,000 - 8,500

Ex Eliasberg.

1859 LIBERTY SEATED QUARTER

- 1439 1859. NGC graded Proof 65.** Only 800 minted. The obverse offers rose-gold and blue toning while the reverse is more uniform with deep and lovely blue and purple toning. Scarce at the Gem level and highly desirable for the rich, original toning and depth of the strike. An early Proof like this, struck well before the Motto was added to the reverse, is always a hard coin to find in Gem! Perfect for the advanced date or type collector. **Pop 21; 19 finer.**

Estimated Value\$4,500 - 5,000

- 1440 1870. PCGS graded Proof 63.** Lovely blue and golden toning, particularly rich and deep on the obverse, while the reverse is more framed in rich toning with vibrant white at the center. Booming eye appeal and far nicer than usually seen at this grade level. Only 1,000 minted. **Pop 38; 50 finer at PCGS . (PCGS # 5569)**
Estimated Value \$650 - 700

- 1441 1873. No Arrows, Closed 3. NGC graded Proof 64. PQ.** Lovely rainbow toning on both sides of vibrant blue and teal mixed with classic orange russet. An elegant example that offers clean surfaces and exceptional color. Only 600 struck. **Pop 47; 35 finer at NGC.**
Estimated Value \$1,000 - 1,100

1873-CC SEATED QUARTER WITH ARROWS

- 1442 1873-CC. Arrows PCGS graded Genuine XF Details.** Repaired. Merely 50 examples are estimated to have survived. An extremely elusive issue. While the repair can be seen, this example has strong eye appeal. Gun metal grey coloration deepens towards the denticles with lighter silver on the devices. **(PCGS # 5492)**
Estimated Value \$10,000 - 12,000

1874 SEATED QUARTER WITH ARROWS

- 1443 1874. Arrows. NGC graded Proof 65.** Lovely blue and lilac toning. This is a tough type issue as the Arrows were only used on this type from early 1873 through 1874. Gems are elusive! Only 700 struck. **Pop 40; 35 finer at NGC.**
Estimated Value \$5,000 - 5,500

- 1444 1877-CC. NGC graded MS-65.** Boldly struck and a nice white coin that retains super clean fields and devices, enough to earn the Gem grade from NGC. Impressive in every regard! **Pop 39; 26 finer .**
Estimated Value \$1,500 - 1,600

- 1445 1886. PCGS graded Proof 64. CAC APPROVED.** Only 886 minted. Solid contrast and well frosted on the devices. The surfaces are bright with handsome russet gold and a touch of blue. The holder shows some scratches. **Pop 60; 65 finer, 29 in 65, 26 in 66, 9 in 67, 1 in 67+.** **(PCGS # 5587)**

Estimated Value \$1,200 - 1,300

1448 1893. NGC graded Proof 64. PQ. Lovely blue toning around the rims of both sides, with the centers bright and well frosted. Housed in an Old Style Holder. Only 792 struck. **Pop 44; 84 finer at NGC.**

GEM 1916-D BARBER QUARTER

Enlargement

- 1453 1916-D. NGC graded MS-68.** Nicely toned on both sides with gorgeous iridescent shades of pastel gold, green and blue. Standing Liberty Quarter Dollars

LOVELY 1916 LIBERTY STANDING QUARTER

Enlargement

- 1454 1916. NGC graded MS-65 Full Head.** A fully frosty white gem of this important first year of issue. Furthermore only 52,000 were struck and these were all released in early 1917 along with thousands of 1917 quarters! Hence the 1916 issue escaped into circulation unnoticed, and precious few were saved from this meager beginning. Finding one with a full head is a real challenge as most of those that were saved show more softness in the strike on Liberty's head than found here. And to top everything off, the surfaces are fully Gem quality, with the satiny luster undisturbed by more than a few tiny scuffs and nicks. A prized example for the most advanced collection of this gorgeous series. A popular key date. **Pop 47; 25 finer at NGC.**
Estimated Value \$25,000 - 27,000

KEY DATE 1916 QUARTER

Enlargement

1455 1916. NGC graded MS-65. A frosty white coin. A popular key date that is seldom found in Gem condition. Only 52,000 struck and this is one of the finer examples known today. The surfaces are satiny and all but free of any sign of handling, with a decent strike on Liberty's head and the shield. Remarkably, these were struck right at the tail end of 1916, and were not released separately but along with the 1917 quarters once they were struck. Hence few were saved as these just appeared to be part of the general new issue. It wasn't until sometime later that the rarity of the 1916 Standing Liberty quarters became known, but by then most had been in circulation for some time. **Pop 24; 7 finer, 1 in 65+, 3 in 66, 1 in 66 Star, 2 in 67.**
Estimated Value \$18,000 - 19,000

Estimated Value \$550 - 600

1918/7-S LIBERTY STANDING QUARTER

- 1459 1918-S, 8 over 7. PCGS graded VF-25.** Popular over date. Mostly untuned with pleasing silver-gray dominating the surfaces with a touch of russet at the rims. The surfaces offer smooth wear and are trouble free after brief circulation. The overdate feature is clear but does show the expected wear on the uppermost portions of the digits. A truly rare issue that is seldom found and the total numbers reported today are much lower than many collectors realize. As such, this remains the key to the set along with the first year of issue 1916. A pleasing representative of this important mint blunder. (PCGS # 5726)
Estimated Value \$4,000 - 4,400

- 1460 1920. PCGS graded MS-66. CAC APPROVED.** A nice looking coin. The head is almost full and the shield has all the bosses well formed by the dies. Estimated Value \$500 - 550

- 1463 1929. PCGS graded MS-66 Full Head.** A nice looking coin that offers a sharper than usual strike to earn the Full Head designation and vibrant luster. The toning of deeper russet at the rims, is handsome and long won after many years placed in a coin album or similar place for the peripheral toning to form in this manner. Highly original and attractive. Pop 119; 17 finer, 8 in 66+, 6 in 67, 3 in 67+. (PCGS # 5773)
Estimated Value \$650 - 700

- 1470 1932-D. PCGS graded MS-63. CAC APPROVED.** Mostly white coin and this is one of the key dates to the Washington quarter series. Capped Bust Half Dollars

LOVELY 1811 CAPPED BUST HALF DOLLAR.

- 1476 1811. Small 8 Overton-110a Rarity 1. NGC graded MS-65.** Nicely toned and well struck. This coin is tied for the fourth finest of the variety according to Steve Herman's *Auction & Mail Bid Prices Realized for Bust Half Dollars 1794 - 1839* The toning is glorious and rich with old silver shades that offer deep jewel tones when examined under a light. The strike is sharp too, with all of Liberty's curls brought up well along with the eagle's tiny feathers. Early Capped Bust half dollars are seldom found in gem condition, and this offering is certainly something worthy of note. **Pop 1; none finer at NGC for the variety.**

1832. SMALL LETTER. OVERTON-103

- 1479 1832. Small Letter. Overton-103, Rarity 1. NGC graded MS-65+.** Evenly toned with golden russet shades and well struck. The preservation on this particular coin is astounding, with undisturbed devices and fields, and the toning has an age old appearance that is wonderfully original and fresh. This one is arguably the third finest of the variety behind two MS-66 coins, which no doubt compare favorably to this remarkable specimen. An opportunity for the advanced Capped Bust half specialist! **Pop 1; none finer at NGC for the variety.**

Estimated Value \$6,500 - 7,000

1833 CAPPED BUST HALF DOLLAR

An important offering! **Pop 2; 9 finer, 6 in 66, 2 in 67, 1 in 68.**

GEM PROOF 1856 LIBERTY SEATED HALF

Enlargement

- 1482 1856. NGC graded Proof 66.** Only 25 are believed to have been minted. However, later research is beginning to question this number as it appears that more than that number are known today. What is becoming clearer is that a photographic record is essential for tracking coins like this, so that over a few generations, the true number of those that exist can more accurately be determined. Boldly struck and amazingly well preserved, with light blue toning on both sides. The fields are free of any distracting contact marks, as are the frosted devices. In short, this coin is stunning, both in quality as well as the eye appeal for the toning. An extremely challenging issue to find at all, with such a tiny mintage and the number known today **Pop 2; none finer at NGC.**

RARE 1870-CC LIBERTY SEATED HALF

Enlargement

- 1486 1870-CC. NGC graded AU-50.** Nice even light silver-gray toning on both sides. The fields and devices are pleasing as there are none of the usual deep marks that are so often found on these Carson City Mint coins. This one must have circulated gently! 1870 was the first year of coinage production at the Carson City Mint, not many of these were saved and most of the known examples show considerable wear and tear. For the collector who desires both high grade and good eye appeal, this one should certainly please even the fussiest numismatist for this key issue. Only 54,617 struck. **Pop 4; 8 finer at NGC.**

GEM 1911-S BARBER HALF DOLLAR

1498 1911-S. PCGS graded MS-66+. CAC APPROVED.

Lovely light toning on both sides. This is one of the tougher issues to find in full Gem condition, and at this lofty grade level is noteworthy as one of the finest known of this date and mint. The surfaces are satin smooth, with nary a nick or mark to be found. Delicate golden toning is found with examined. In terms of rarity, David Akers notes that the 1911-S in Gem grades is on par with the rarity of the San Francisco issues of 1906 to 1908 for the Barber Halves. This is fabulous example of this rare date. Quite attractive. **Pop 1; 1 finer in 67+.** (PCGS # 6523)

Estimated Value \$6,500 - 7,000

Walking Liberty Half Dollars

1917-D OBVERSE WALKING HALF

1500 1917-D. Mint mark on obverse. PCGS graded MS-65.

Mostly untuned with bright silver dominating the surface. Outstanding quality for this early date Walking Liberty half, as few were saved that quality for Gem status today. The strike is sharp and the fields are pleasing with little more than a couple of tiny scuffs found when closely examined. There is a small patch of russet toning on the left obverse edge, lighter traces are noted elsewhere. A nice coin that any collector will long appreciate for its charming frost and luster. **Pop 74; 8 finer, 3 in 65+, 5 in 66.** (PCGS # 6570)

Estimated Value \$6,500 - 7,000

SCARCE 1896-O DOLLAR

- 1580 1896-O. NGC graded MS-63.** Mostly untuned. Scarce date and a true condition rarity where even a Choice coin like this is one of the finer graded examples from the New Orleans Mint. These simply did not survive in high grade and most show truly soft central strikes. This one is sharper than many seen, and offers excellent surfaces for the grade assigned. **Pop 152; 15 finer, 1 in 63+, 11 in 64, 3 in 65. (PCGS # 7242)**
Estimated Value \$4,800 - 5,000

Estimated Value \$600 - 650

- 1582 1900-O, O over CC Top 100 VAM-11. PCGS graded MS-64.** A nice white coin and a prime example of this popular over mintmark. After the Carson City Mint closed in 1893 leftover dies must have been shipped back to Philadelphia, which finally got around to partially effacing the CC Mintmark and stamping the O in its place for New Orleans. These went unnoticed for many years so survival is random. Thankfully for collectors some nice pieces, like this satiny white MS-64, are still around. **Pop 32; 11 finer for the variety, 1 in 64+, 8 in 65, 2 in 66. (PCGS # 133963)**
Estimated Value \$700 - 750

SO-CALLED DOLLARS

- 1646 1876 U.S. Centennial Expo - Liberty Seated Dollar. HK-59, Rarity 6. NGC graded MS-61 Prooflike.** White metal, 38 mm. From the popular but rare Liberty Seated series. Although cataloged as Rarity 6, a descent example could be more difficult to locate than one may have thought. The presented piece bears an unusual contrast between the devices and fields. Some marks, friction, and tiny pimple noticeable, but mainly probably as made. An outstanding piece comparing with available examples in the current market, if any, and will be a great addition to any advanced collection of so-called dollars. **Pop 1; none finer at NGC. The solo mint state example graded at both services.**

Estimated Value \$500 - 550

- 1647 1901-1902 South Carolina Inter-State Expo Dollar. HK-294, Rarity 5. NGC graded MS-63.** Brass, 35 mm. A typically more desirable type due to the beautiful engraving on both sides. The obverse, bearing the scene of the city's port behind the winged female, serves the purpose of this issue, which was to advertise the commercial potentials of Charleston, better than the other two medals (HK-292 and HK-293), therefore makes it more identifiable and interesting. Some discoloration on the obverse, and weakly struck on the face, otherwise should grade one point higher. A glorious piece that should bring some attention. **Pop 5; 13 finer, 7 in 64, 4 in 65, 2 in 66.**

Estimated Value \$100 - 150

- 1694 New York Jan. 6, 1776 4s PCGS Choice About New 58PPQ. Fr-NY-183.** This 4 shillings note has excellent margins and originality for the issue.

- 1695 New York Jan. 6, 1776 8s PCGS Choice About New 58PPQ. Fr-NY-184.** A high-end circulated "Water Works" issue note, with just a touch of paper toning around the edges.
Estimated Value \$150 - 200

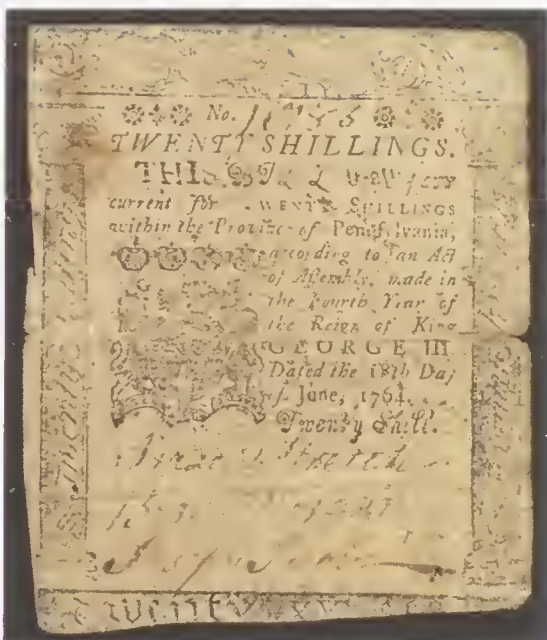

- 1689 Continental Currency Nov. 2 1776 PCGS Very Fine 25 Apparent. Fr-49. KL-109.** A pleasing circulated example of this scarcer note, with a small edge split at the top center identified by PCGS as the reason for the "apparent" grade.
Estimated Value \$120 - 150

- 1690 Continental Currency Sept. 26, 1778 \$5 PCGS About New 53PPQ. Fr-CC-79.** This is the lowest, and scarcest, denomination from this issue. This pleasing example is fully original with bold printing and dark pen signatures and serial number. A couple of light bends are all that prevent a much higher grade.
Estimated Value \$300 - 400

- 1691 Delaware Jan. 1, 1776 20s, PCGS About New 53PPQ. Fr-DE-80.** A bright, clean, and fully original piece with outstanding eye appeal for the grade.
Estimated Value \$200 - 250

- Estimated Value \$150 - 200

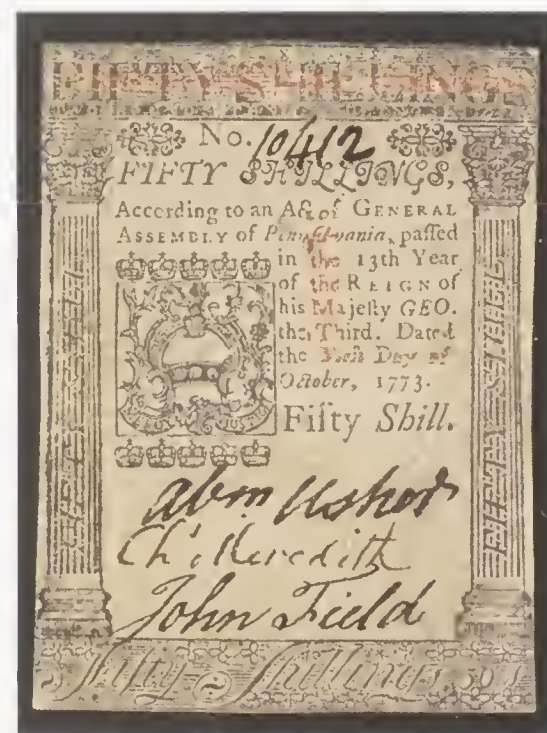

- Estimated Value \$120 - 150

- Estimated Value \$600 - 800

- Estimated Value \$100 - 150

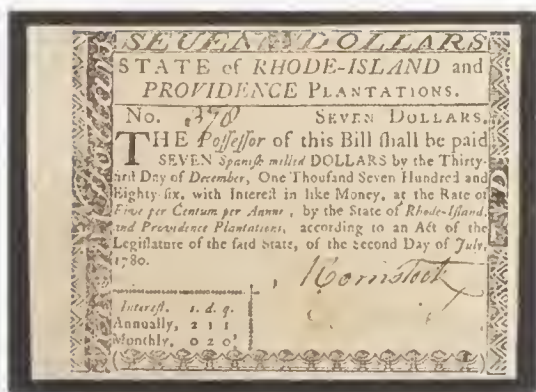

- Estimated Value \$100 - 150

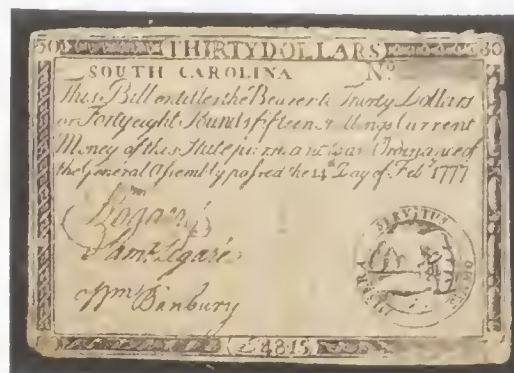

- 1701 Pennsylvania Oct. 1, 1773 50s PCGS Extremely Fine 40. Fr-PA-170.** A second example of the 50 shillings note, slightly lower grade than the last but with better margins--although the corners tips are trivially clipped.
Estimated Value \$100 - 150

- 1702 Pennsylvania Oct. 25, 1775 9d PCGS Extremely Fine 45. Fr-PA-184.** A nice, lightly circulated example with good margins and excellent printed and handwritten inks. A few toning spots are all that prevent a PPQ designation on this otherwise original small change piece.
Estimated Value \$90 - 120

- 1703 Rhode Island July 2, 1780 \$7 PCGS Choice About New 58PPQ. Fr-RI-287.** A single light sheet fold near the bottom edge is the only grade-limiting factor.
Estimated Value \$200 - 250

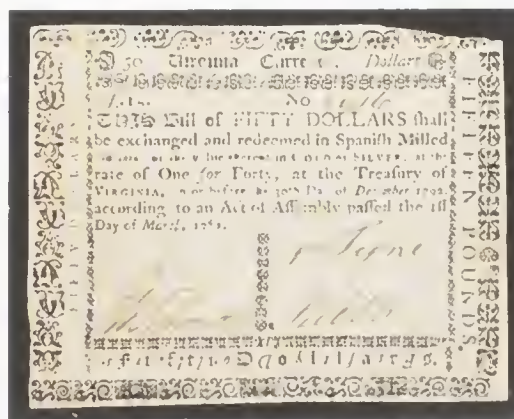

- 1704 Rhode Island July 2, 1780 \$7 PCGS Extremely Fine 45 Apparent. Fr-RI-287.** A lightly circulated odd denomination note, with the apparent grade assigned solely due to a minor ink stain at the left edge.
Estimated Value \$150 - 200

- 1705 South Carolina Feb. 14, 1777 \$30 PCGS Very Fine 25 Apparent. Fr-SC-144.** The \$30 note is the higher of the two denominations issued under this date. Despite the apparent designation by PCGS, due to some minor edge tears and fraying, and a small bit of mounting on the back, this is a clearly signed example with great overall eye appeal.
Estimated Value \$200 - 250

- 1706 Virginia March 1, 1781 \$250 PCGS Very Fine 35 Apparent. Fr-VA-207a.** "Small edge and internal splits and tears" are noted on the PCGS holder, minor problems that are mentioned solely for accuracy as they don't overly affect the appearance of this thick paper variety note.
Estimated Value \$150 - 200

- 1707 Virginia March 1, 1781 \$50, Thick Laid Paper PCGS Extremely Fine 45 Apparent. Fr-VA-204b.** Although there is a small edge split at top center and a bit of minor edge damage in the upper right corner, this is a very presentable piece overall with bold printed inks, bright paper, and clear pen signatures.
Estimated Value \$300 - 400

BROKEN BANK NOTES AND OBSOLETE NOTES

- 1708 Abbott & Mather 5¢ July 2, 1862 Remainder, Hooper 188-UNL. PCGS Very Fine 35.** A very scarce piece of scrip, this denomination unlisted in the Hooper reference. It is an unissued remainder of a design that this cataloger has not previously seen.

Estimated Value \$200 - 300

- 1709 Somerset & Worcester Savings Bank, Salisbury, MD \$1, \$2, \$3, and \$5 Set.** A lovely set of PCGS-graded notes from this popularly collected issuer, with grades assigned as follows: \$1 Nov. 1, 1862, KSG 116.5.2, PCGS Choice About New 58 Apparent, small stain near LR corner; \$2 Nov. 1, 1862, KSG 116.5.7, PCGS Choice About New 58PPQ; \$3 Nov. 1, 1862, KSG 116.5.12, PCGS Choice About New 55PPQ; and \$5 Nov. 1, 1862, KSG 116.5.17, PCGS New 61PPQ. Lot of 4 notes.

Estimated Value \$200 - 300

- 1710 Mechanics Bank of Pittsburgh, PA \$1 May 1, 1861, Haxby 540-UNL. PCGS Very Fine 20 Apparent.** This is a scarce design that is unlisted in the Haxby reference, where it is only listed in this design with a green tint rather than red as used on this note. The central vignette aptly portrays a workman in a factory setting. The "apparent" designation from PCGS Currency is solely for a small stain at the right of center that is more visible from the unprinted back than from the face.

Estimated Value \$150 - 200

- 1711 Unknown Issuer, Pittsburgh, PA 5¢ Jan. 1, 1863, Hooper 312-143. PCGS Choice About New 58 Apparent.** A scarce piece of small change scrip that is signed and presumably issued, and that is flawed only by some minor mounting remnants and a small amount of damage in the corners.

Estimated Value \$100 - 150

- 1712 Alleghany Furnace Store, Alleghany Furnace, PA 5¢ Jan. 1, 1856 Remainder, Hooper 6-1. PCGS Choice About New 58PPQ.** A nice store scrip remainder.

Estimated Value \$40 - 50

- 1714 Northampton Bank, Allentown, PA, \$5 Oct. 26, 1841. Haxby 370-G70. PCGS Very Fine 25 Apparent.** Some minor staining is the only mentionable flaw on this piece that features a beehive vignette at the center.

Estimated Value \$30 - 40

- 1715 30-piece lot of Broken Bank Notes and miscellaneous.** Mostly different, all used and includes some lower grade "Rags". Most of the notes however, will grade Fine condition. Highlights Include: \$1.00, \$3.00 and \$10.00 notes of the Mechanics Bank of Memphis, Tenn. A majority of the notes are Broken Bank types. Lot of 30 notes.

Estimated Value \$400 - 500

Estimated Value \$125 - 150

- 1717 1864 \$500. PCGS Very Fine 30 Apparent. Fr-T-64.** This is a lovely "Stonewall" Jackson note, with a bold pink underprint. The apparent grade is due only to a minor ink stain in the upper left corner.

Estimated Value \$150 - 200

- 1718 1862 \$100. PCGS About New 53PPQ. Fr-T-41.** A lovely example with above average margins for the issue.

Estimated Value \$1,000-UP

LARGE SIZE NOTES

- 1720 1862, \$1 United States Note. PCGS Very Fine 25 Apparent. Fr-16c. KL-3.** A nice-looking circulated example of the scarcer "c" variety, with no ABNco. monogram and no green patent date in the right border. A small repaired edge tear at the bottom left of center is mentioned by PCGS Currency.

Estimated Value \$700 - 900

- 1721 1875, \$1 United States Note. PCGS About New 53 Apparent. Fr-26. KL-13.** A few scattered pinholes are evident on this otherwise high-end circulated example.

Estimated Value \$200 - 250

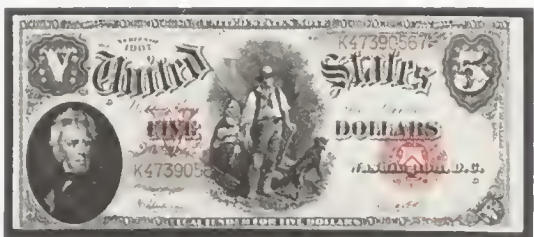

- 1722 1917, \$1 United States Note. PCGS Choice About New 55. Fr-37. KL-24.** This well-centered Ace displays bold, original embossing and excellent color, but a trivial bit of staining is evident in the thin margins.

Estimated Value \$175 - 225

1723 1923, \$1 United States Note. PCGS Very Fine 25 Apparent. Fr-40. KL-28. A small repaired edge tear at the top left of center is the designated reason for the apparent grade.
Estimated Value \$75 - 100

1724 1869, \$2 United States Note. PCGS Good 6. Fr-42. KL-102. Although heavily circulated, this Rainbow Deuce retains good color and excellent eye appeal for the grade.
Estimated Value \$300 - 400

1725 1907, \$5 United States Note. PCGS Choice About New 55. Fr-91. KL-221. A couple of light bends are all that prevent a higher grade on this lovely "Woodchopper."
Estimated Value \$350 - 450

1726 1907, \$5 United States Note. PCGS Fine 15. Fr-91. KL-221. An evenly circulated "Woodchopper" note, ideal for the budget-conscious collector who would like a pleasing, yet inexpensive, example of this ever-popular type.
Estimated Value \$125 - 150

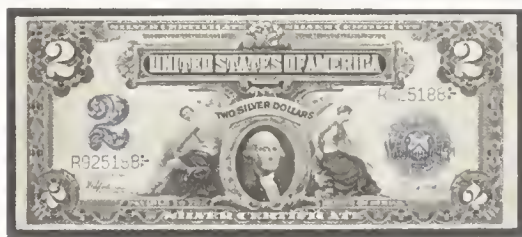

1727 1901, \$10 United States Note. Mule. PCGS Very Fine 30. Fr-121. KL-387. This Bison note retains good color and, despite some hidden folds, has the eye appeal of a higher grade.
Estimated Value \$1,200 - 1,500

1728 1896, \$1 Silver Certificate. PCGS Very Fine 20. Fr-224. KL-38. A nice circulated example of this always popular "Educational Series" design, which features portraits of both Martha and George Washington on the back.
Estimated Value \$275 - 325

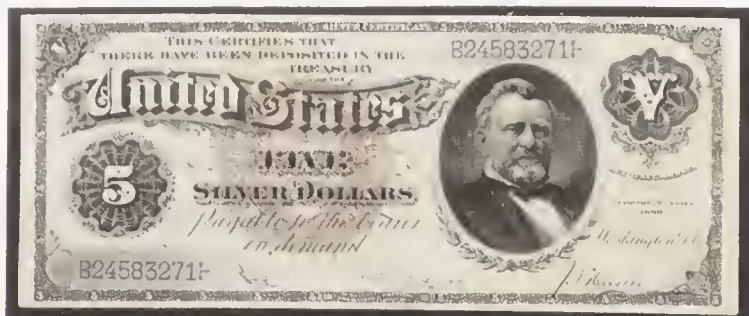

1729 1899, \$1 Silver Certificate. PCGS About New 50. Fr-236. KL-51. This Black Eagle has a bit of trivial paper toning around the edges, but is otherwise problem-free.
Estimated Value \$200 - 250

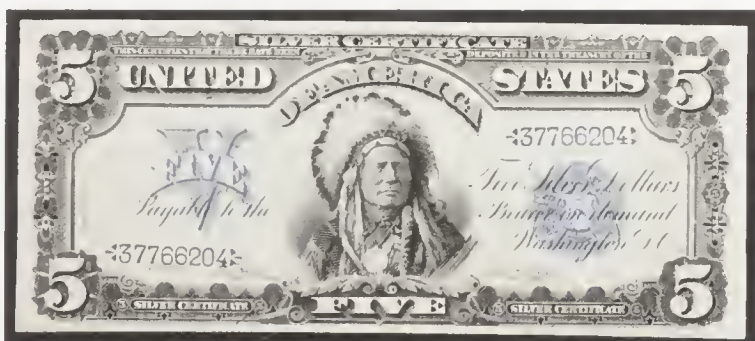

1730 1899, \$2 Silver Certificate. PCGS Very Fine 25. Fr-258. KL-139. An "Agricultural" series Deuce with no mentionable flaws other than honest circulation.
Estimated Value \$180 - 220

1886, \$5 Silver Certificate

- 1731 1886, \$5 Silver Certificate. PCGS Very Fine 25. Fr-263. KL-233.** This design type, with five Morgan Silver Dollars engraved on the back, is perennially ranked among the most popular design types of U.S. currency among collectors. Nice circulated examples with a clear, unmarred back design, like the piece here offered, are always in short supply.

Estimated Value \$3,000 - 4,000

- 1732 1899, \$5 Silver Certificate. PCGS About New 53. Fr-271. KL-241.** A couple of minor folds and a trivial, small stain under the Treasury seal are the only mentionable flaws on this \$5 "Indian Chief" type note.

Estimated Value \$1,600 - 2,000

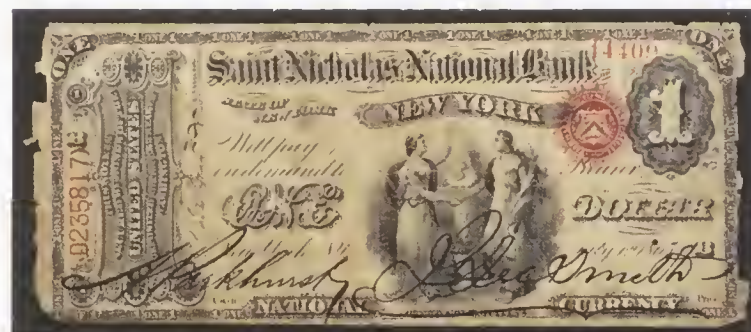

- 1733 1902, \$5 National Bank Note. The First NB, Toms River, NJ. Ch. #2509. PCGS Very Fine 20PPQ. Fr-607. KL-1164.**

This is a bright example from a popularly collected New Jersey location, with completely original paper quality and no flaws other than the slightly askew bottom margin which was cut into the design at the time of issue. Most small town banks simply cut the notes by hand from the sheets that they were provided as they were needed, and some bank tellers or cashiers were less careful than others.

Estimated Value \$300 - 400

- 1734 1902, \$5 National Bank Note. NB of Commerce in St. Louis, MO. Ch. #4178. PCGS Fine 12. Fr-601. KL-1158.** No major flaws are present on this large size example.

Estimated Value \$1,000 - 1,200

- 1736 Original Series, \$1 National Bank Note. The Saint Nicholas NB, New York, NY. Ch. #972. PCGS Fine 12. Fr-380. KL-1086.** An evenly circulated and well margined "Ace" that carries an always popular bank name. Good color and bold pen signatures enhance the appeal.

Estimated Value \$500 - 700

LOVELY HIGH GRADE LAZY DEUCE

- 1737** Original Series, \$2 National Bank Note. The Merchants Exchange NB, New York, NY. Ch. #1080. PCGS Very Fine 30 Apparent. Fr-387b. KL-1093. This is a lovely "Lazy Deuce" that has great eye appeal for a mid-grade circulated note, with bold colors, bright paper, and excellent originality that is marred only by a trivial repair of a small edge tear in the top margin near the left end. This design type is always in demand by collectors, and nice-looking examples like this note are constantly in short supply.
Estimated Value \$3,500 - 4,500

RARE LAS VEGAS TERRITORY \$10.00 NOTE

- 1738** 1882, \$10 National Bank Note. The San Miguel NB, Las Vegas, Ter. of NM. Ch. #2454. PMG Very Good 10 Net. Fr-490. KL-1196. This Territorial Brown Back appears considerably nicer than its PMG assigned grade, and it displays good color and bold pen signatures. A couple of tape repairs and some tape residue is visible only on the back. A perfect example for the budget-minded collector to obtain a single example from the Territorial period.
Estimated Value \$5,000 - 7,000

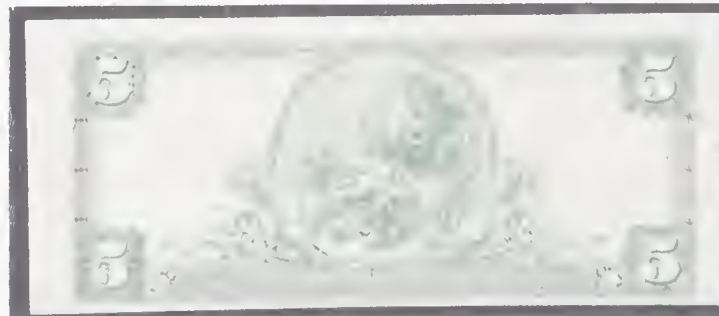

- 1739** 1882, \$20 National Bank Note. The Bank of Pittsburgh, NA, Pittsburgh, PA. Ch. #5225. PCGS Fine 15. Fr-555. KL-1278. An evenly circulated Second Charter period note with no visible flaws and clearly original paper quality.

This evocatively named bank, from the South Shore of Long Island, is always popular among collectors. This large size note has a bit of edge fraying and some minor splits, but retains a bold appearance for the grade.
Estimated Value \$800 - 1,000

RARE \$5 UTAH NATIONAL

- 1741** 1902, \$5 National Bank Note. The First NB of Brigham City, Utah. Fr-608. KL-1165. Charter #6036. PMG Very Fine 30. All signatures are nice and clear. A scarce note.
Estimated Value \$2,000 - 2,500

- 1742 1902, \$10 National Bank Note. The First NB, Sykesville, PA. Ch. #7488. PCGS Fine 12. Fr-624. KL-1170.** This note has all the hallmarks of a Gem, with wide margins, good centering, and fully original and bold embossing. KL-1317.** This very scarce bank in Doddridge County is represented by a mere seven small size notes in the census of surviving examples. This \$20 received an apparent grade by PCGS due only to some light staining which is really just some soiling that the note picked up during its time spent in the channels of commerce. Despite this minor flaw, it is an important note that should catch the attention of serious West Virginia collectors who will recognize the rarity.

Estimated Value \$300 - 400

- 1819 1929, \$20 National Bank Note. The Millers River NB, Athol, MA. Ch. #708. PCGS Very Fine 25 Apparent. Fr-1802-1. Estimated Value \$450 - 550

- 1823 A starter collection of Small Size Federal Reserve Bank Notes.** This group includes 11 different small size Federal Reserve Bank Notes from the 1929 series: \$5 notes from the Boston, New York, Philadelphia, Atlanta, Chicago, and Kansas City district banks (6); \$10 from the Richmond district (1); \$20 notes from the Boston, Richmond, and Atlanta districts (3); \$50 from New York (1). The grades range from VG to VF or better. Lot of 11 notes.

Estimated Value \$200 - 250

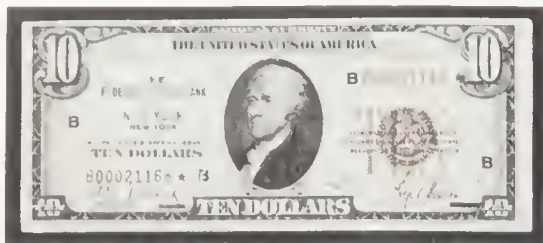

- 1824 1929, \$5 Federal Reserve Bank Note. Star Note. PCGS Very Good 10. Fr-1850-G*. KL-1665.** While this replacement note shows the obvious signs of circulation that one would expect for the assigned grade, it is remarkably free of any mentionable problems. Only 84,000 star notes were printed from the Chicago district, and this pleasing example is ideal to fill a hole in any collection.

Estimated Value \$200 - 300

- 1825 1929, \$5 Federal Reserve Bank Note. PCGS About 53PPQ. Fr-1850-G. KL-1665.** A couple of light bends define the assigned grade, but there is plenty of eye appeal present on this Chicago FRBN. The fully original embossing is bold throughout and can be easily seen through the holder.

Estimated Value \$75 - 100

- 1826 1929, \$10 Federal Reserve Bank Note. Star Note. PCGS Very Fine 25. Fr-1860-B*. KL-1975.** While star notes from the New York district bank are the most "common" of the 1929 FRBN \$10 replacements, a paltry 76,000 notes were printed and only a tiny fraction of those survive today. Most examples are apt to be either well worn or damaged; this piece is a pleasant exception to the rule and represents an affordable mid-grade example that will enhance any collection.

Estimated Value \$250 - 350

- 1827 1929, \$10 Federal Reserve Bank Note. PCGS Choice About New 58PPQ. Fr-1860-G. KL-1980.** This Chicago \$10 faces up as a Gem at first glance, and has all the embossing and originality for which a collector could ask. A light bend limits the grade, but not the appeal.

Estimated Value \$75 - 100

- 1828 1929, \$10 Federal Reserve Bank Note, San Francisco. PCGS Very Fine 20. Fr-1860-L. KL-1985.** A circulated example from a scarcer district bank.

Estimated Value \$75 - 100

- 1829 1929, \$20 Federal Reserve Bank Note. PCGS Fine 15 Apparent. Fr-1870-K. KL-2272.** The Dallas district bank is by far the scarcest of the \$20 FRBNs, and even low grade examples seem to be constantly in high demand. This circulated example has a couple of small splits and some very minor damage near the upper left corner, hence the "apparent" grade from PCGS Currency, but otherwise isn't a bad looking note at all.

Estimated Value \$75 - 100

- 1830 A pair of 1929 \$50 Federal Reserve Bank Notes.** Consists of: **Federal Reserve Bank of Chicago, VG; Federal Reserve Bank of San Francisco, VF.** Lot of 2 notes.

Estimated Value \$150 - 200

2004. ORIGINAL PACK OF \$5,000 FACE VALUE IN \$50 NOTES

- 1831 2004. Original pack of \$5,000 face value in \$50 notes.** Star notes with sequential serial numbers. **All notes are in Gem UNC conditions.** Lot of 100 notes.

Estimated Value \$8,000 - 9,000

- 1832 1985, \$20 Federal Reserve Note. Overprint on Back Mint Error. The note is in AU condition with a light crease in the middle.**

Estimated Value \$300 - 350

- 1833 Small Size Federal Reserve Notes.** A mixed lot of Federal Reserve Notes, with grades ranging from Fine to Choice CU: a 1977 \$1 Elvis Presley stamped and postmarked note; a 1981A \$1 also stamped and postmarked (12) 1976 \$2s, three of them stamped and postmarked (2) 1995 \$2s; a 1934A \$5 (New York) (3) 1950 \$5s (Cleveland, Chicago, and San Francisco) (4) 1950A \$5s (one Boston and three New York); a 1950B \$5 (San Francisco) in Choice AU; a 1928 \$10 (St. Louis); a 1928B \$10 LGS (Chicago), VF with edge tears; a 1934A \$10 (New York); a 1928 \$20 (Philadelphia); a 1928A \$20 (Chicago), VF-XF; a 1928B \$20 (Kansas City), VF; a 1934A \$20 (New York); and a 1934 \$50 (San Francisco), AU. Lot of 33 notes.

Estimated Value \$350 - 450

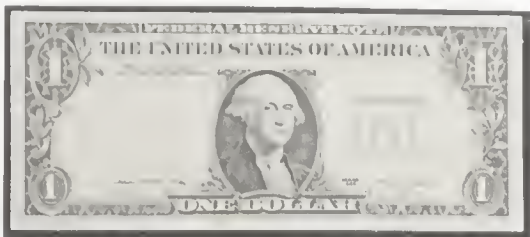

- 1834 A modern \$1 and \$2 Federal Reserve Note assortment.** A nice group of UNC notes, all from recent modern series: **\$1 notes (17); \$2 notes (22).** Included are a handful of star notes, some "radar" notes, other fancy serial numbers, and some small consecutive runs. Lot of 39 notes.

Estimated Value \$100 - 125

- 1835 1985, \$1 Federal Reserve Note. Turned Suffix Letter in Serial Number. PCGS Fine 15 Apparent. Fr-1913-I.** Although this note has a small edge tear and some minor mounting remnants, as noted by PCGS, the suffix letter in the left serial number is turned so that only the bottom half is visible.

Estimated Value \$75 - 100

- 1836 1988. \$1 Federal Reserve Note. Missing Overprint Error.. Fr-1914-?.** This note skipped the third printing completely, as it's missing the Treasury and district bank seals and its serial numbers. **The note will grade Choice VF.**
Estimated Value \$100 - 150

- 1837 1988-A, \$1 Federal Reserve Note. Web Note. PCGS Very Fine 30PPQ. Fr-1917-F.** A solid circulated example of this very scarce first print run note from the short-lived web press, from the Atlanta F-L serial number block.
Estimated Value \$75 - 100

- 1838 1988-A, \$1 Federal Reserve Note. Web Note. PCGS Extremely Fine 40PPQ. Fr-1917-G.** A lightly circulated and strictly original example from the scarcer Chicago G-Q serial number block.
Estimated Value \$75 - 100

- 1839 \$1 Federal Reserve Notes Uncut Sheet of 16 Notes. Fr-1924-E*.** This Richmond star note sheet is as issued, except for a small tape-repaired edge tear in the top margin. Perfect for display or framing.
Estimated Value \$75 - 100

- 1840 1976, \$2 Federal Reserve Note. PCGS Choice New 63PPQ. Fr-1935-F.** This Atlanta \$2 bears the intriguing serial number F01001776A, from the 1976 series.
Estimated Value \$50 - 75

- 1841 1976, \$2 Federal Reserve Note. Star Note. PCGS Superb Gem New 68PPQ. Fr-1935-G*.** Next to the I and J district Minneapolis and Kansas City star notes, the Chicago star is the third scarcest note in this series. This example is tied for finest known honors, as it is one of just 7 examples graded in 68PPQ by PCGS with none finer.
Estimated Value \$100 - 150

- 1842 1976, \$2 Federal Reserve Note. Star Note. PCGS Superb Gem New 67PPQ. Fr-1935-G*.** Well centered and broadly margined, a scarcer star note from Chicago.
Estimated Value \$75 - 100

- 1843 1976, \$2 Federal Reserve Note. PCGS Superb Gem New 67PPQ. Fr-1935-G*.** This scarce Chicago star note deuce possesses ideal margins and centering.
Estimated Value \$75 - 100

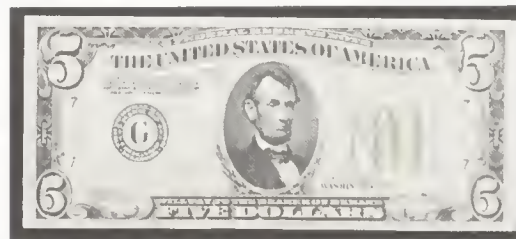

- 1844 1976, \$2 Federal Reserve Note. Star Note. PCGS Superb Gem New 68PPQ. Fr-1935-H*.** A lovely, broad margined example from the St. Louis district bank. This piece is one of just nine examples graded 68PPQ by PCGS, with only two notes graded finer.
Estimated Value \$75 - 100

- 1845 1976, \$2 Federal Reserve Note. Star Note. PCGS Choice About New 55PPQ. Fr-1935-I*.** The Minneapolis star note is the key to the 1976 \$2 FRN series, and circulated examples are probably scarcer than uncirculated examples. This piece has just a single fold that defines the grade.
Estimated Value \$75 - 100

- 1846 A bundle of \$2 Federal Reserve Note, Series of 1976.** \$200 face value in consecutive numbers. **Notes are all in UNC conditions.** Includes the original BEP wrapper. Lot of 100 notes.
Estimated Value \$250 - 300

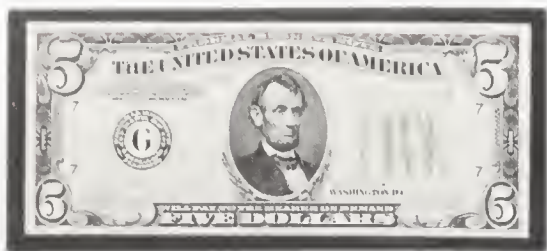

- 1847 1995, \$2 Federal Reserve Notes. Two Different Blocks. PCGS Gem New 66PPQ and Superb Gem New 67PPQ. Fr-1936-F.** A nice PCGS-graded pair of high grade examples from Atlanta, both scarce singles from serial number blocks that were originally issued only in uncut sheets from the BEP. The F-D block note grades Gem New 66PPQ, while the F-H block deuce grades Superb Gem New 67PPQ. Lot of 2 notes.
Estimated Value \$80 - 100

- 1848 1934-A, \$5 Federal Reserve Note. Star Note. PCGS Fine 15. Fr-1957-B*.** A replacement note from the New York district bank.
Estimated Value \$40 - 50

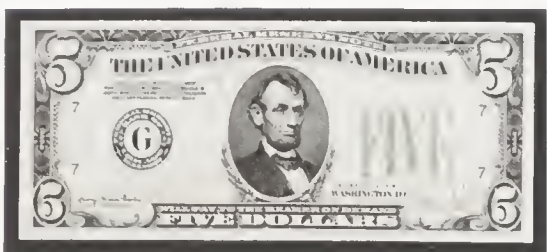

- 1849 1934-A, \$5 Federal Reserve Note. PCGS Superb Gem New 67PPQ. Fr-1957-G.** This is a beautiful "Top Pop" \$5 FRN from the Chicago district bank, tied for the finest known as one of only 6 examples graded 67PPQ by PCGS to date. It has outstanding margins, completely original paper, and bright paper that contrasts beautifully with the bold inks. A long-neglected area of collecting, small size Federal Reserve Notes are finally beginning to receive some of the attention that they deserve in the marketplace.
Estimated Value \$200 - 300

- 1850 1934-A, \$5 Federal Reserve Note. Star Note. PCGS Very Fine 30PPQ. Fr-1957-G*.** An absolutely problem-free mid-grade circulated Star Note example from the Chicago district bank.
Estimated Value \$75 - 100

- 1851 1934-C, \$5 Federal Reserve Note. Wide Face. PCGS Gem New 66PPQ. Fr-1959-G.** This lovely Gem qualifies for finest known honors, as it is tied with just six other notes as the finest example graded to date by PCGS with none finer.
Estimated Value \$100 - 150

- 1852 1934-D, \$5 Federal Reserve Note. PCGS Gem New 66PPQ. Fr-1960-G.** An outstanding Chicago Gem with broad margins, excellent originality, and flawless paper quality.
Estimated Value \$100 - 150

- 1853 Fr-1962-D and G 1950A, \$10 Federal Reserve Notes Pair. PCGS Very Choice New 64PPQ. Fr-1962.** A nice pair of PCGS-certified near-Gems, one from the scarcer Cleveland district and the second from Chicago. Lot of 2 notes.
Estimated Value \$75 - 100

- 1854 1950-B, \$5 Federal Reserve Note. Star Note. PCGS Extremely Fine 40PPQ. Fr-1963-C*.** This problem-free, lightly circulated Star note example from the Philadelphia district bank has the look of a higher grade but a few light folds define the grade.
Estimated Value \$40 - 60

- 1855 1950-C, \$5 Federal Reserve Note. PCGS Gem New 66PPQ. Fr-1964-G.** This broadly margined Gem from the Chicago district is one of only 5 examples from this bank to receive the 66PPQ grade to date by PCGS, with only three finer. As the marketplace finally begins to give small size Federal Reserve Notes the attention that they've long deserved, it is becoming apparent that there are many grade rarities among many series. This is likely due in part to them being long-ignored, as even high grade examples were seldom saved--particularly in any quantities.
Estimated Value \$50 - 75

- 1856 Fr-1965-B and G, 1950-D, \$5 Federal Reserve Note Pair. PCGS Gem New 66PPQ. Fr-1965-B.** A lovely pair of Gems, one from New York and one from Chicago. Each is broadly margined and completely original. Lot of 2 notes.
Estimated Value \$90 - 120

- 1857 1950-D, \$5 Federal Reserve Note. Star Note. PCGS Extremely Fine 40. Fr-1965-J*.** A scarce star note from the Kansas City district, one of just seven pieces graded by PCGS to date in all grades combined.
Estimated Value \$75 - 100

- 1858 1950-E, \$5 Federal Reserve Note. PCGS Gem New 65PPQ. Fr-1966-B.** The 1950E series was printed in limited numbers, and only for three of the twelve district banks. This New York example, which is from the much scarcer B-G block, is a lovely Gem with ideal color, bright paper, and bold originality. It is one of only five examples from this serial number block graded in all uncirculated grades by PCGS to date, with three at the 65PPQ level and only one (a 66PPQ) finer. If this were a coin, similar population levels would dictate a four-figure (or even higher) price tag. Small Size Federal Reserve Notes remain one of the great areas of collecting where absolute rarity can still be found without an astronomic price tag.
Estimated Value \$100 - 150

- 1859 1963-A Series \$5 FRN Certified Gem Starter Set. Fr-1968-B.** A lovely group of five certified Gem \$5 Federal Reserve Notes from the 1963A series, each from a different serial number block and each graded by PCGS Currency. Each is also at or near the top of the population census for surviving examples graded by PCGS to date: Fr. 1968-B (New York) B-A block, Gem New 65PPQ (population 3, none finer); Fr. 1968-D (Cleveland) D-A block, Gem New 66PPQ (population 3, only 1 finer); Fr. 1968-G (Chicago) G-A block, Gem New 66PPQ (population 3, only 3 finer); Fr. 1968-G (Chicago) G-B block, Gem New 65PPQ (population 9, 16 finer); Fr. 1968-G (Chicago) G-C block, Gem New 66PPQ (population 4, only 2 finer). Lot of 5 notes.
Estimated Value \$200 - 300

- 1860 1969, \$5 Federal Reserve Note. PCGS Superb Gem New 67PPQ. Fr-1969-D.** This lovely Cleveland \$5 is tied for the finest known, with only this note and three others graded at the 67PPQ level by PCGS to date.
Estimated Value \$75 - 100

- 1861 1969, \$5 Federal Reserve Note. PCGS Superb Gem New 68PPQ. Fr-1969-F.** This Atlanta district \$5 is the single finest known example, as neither PCGS nor PMG has graded a single example in 68PPQ/EPQ besides this beautiful Superb Gem example. It has all of the attributes one would expect for the assigned grade: ideal centering, broad margins, and outstanding originality. Estimating a note like this is no more than a guess, as Set Registry competitors will sometimes drive bidding on a note like this to much higher levels than might be expected. Any reasonable expectation, however, would be for this "top pop" note to reach a minimum of our likely conservative estimate.
Estimated Value \$200 - 300

- 1862 1969, \$5 Federal Reserve Note. PCGS Gem New 66PPQ. Fr-1969-G.** Well margined, boldly embossed, and with all the eye appeal one would expect for the grade, this note is one of 10 examples from the Chicago district bank graded at this level by PCGS to date, with only 7 (all 67PPQs) finer.
Estimated Value \$40 - 60

1863 1969-C, \$5 Federal Reserve Note. PCGS Superb Gem New 67PPQ. Fr-1972-G. Another finest known example, this one from the Chicago district, the only \$5 FRN from this series and district graded 67PPQ by PCGS Currency to date, with none finer. (PMG has graded two 67EPqs, with none finer.) With small size \$5 FRN collecting finally coming into its own, we expect spirited bidding on this "top pop" example.
Estimated Value \$100 - 150

1864 Trio of 1974 \$5 Federal Reserve Notes from Different Districts. Fr-1973-C. Three PCGS-certified examples, each grading Gem New 65PPQ, including: Fr. 1973-C (Philadelphia); Fr. 1973-D (Cleveland); and Fr. 1973-H (St. Louis). Lot of 3 notes.
Estimated Value \$75 - 100

1865 Four Different \$5 FRN Gems from Chicago. Fr-1974-G. A lovely group of four different series Gem \$5 FRNs from the Chicago district bank, each graded by PCGS: Fr. 1974-G 1977, Gem New 65PPQ; Fr. 1975-G 1977A, Gem New 66PPQ; Fr. 1976-G 1981, Gem New 65PPQ; and Fr. 1977-G 1981A, Gem New 65PPQ. The 1977A and scarcer 1981A series notes are both tied for finest known honors at PCGS, with no examples graded higher for either series. Lot of 4 notes.
Estimated Value \$150 - 200

1866 1981-A, \$5 Federal Reserve Note. PCGS Gem New 65PPQ. Fr-1977-J. This Kansas City Gem is tied for finest known at PCGS Currency with only one other note graded at the 65PPQ level to date (PMG by comparison has graded two 65EPqs and two 66EPqs).
Estimated Value \$75 - 100

1867 1981-A, \$5 Federal Reserve Note. Star Note. PCGS Choice New 63PPQ. Fr-1977-L*. Replacement star notes were only printed for two districts for the 1981A \$5 FRN series, New York and San Francisco. This "L" district note from the latter of the two is fully original, and would grade higher if the centering were just a touch better.
Estimated Value \$100 - 125

1868 1981-A, \$5 Federal Reserve Note. PCGS Very Choice New 64PPQ. Fr-1977-L. The 1981A series has proven to be one of the scarcest of all "modern" \$5 FRN series, with a surprisingly small quantity of high grade notes surviving. This San Francisco example falls just short of a Gem grade.
Estimated Value \$40 - 60

1869 Ten Different Certified "Modern" \$5 Federal Reserve Notes. Fr-1979-C. This is a nice starter collection of \$5 Federal Reserve Notes from more recent issues, including three star notes: Fr. 1979-C 1988 (Philadelphia) 64PPQ; Fr. 1979-E 1988 (Richmond) 65PPQ; Fr. 1980-G 1988A (Chicago) 65PPQ; Fr. 1980-L 1988A (San Francisco) 64PPQ; Fr. 1985-F 1995 (Atlanta FW) 66PPQ; Fr. 1985-F* 1995 (Atlanta FW) Star Note 65PPQ; Fr. 1985-G 1995 (Chicago FW) 65PPQ; Fr. 1987-L 1999 (San Francisco FW) 66PPQ; Fr. 1988-L* 2001 (San Francisco FW) Star Note 66PPQ; and Fr. 1991-B* 2003A (New York FW) Star Note 66PPQ. The 1995 Atlanta star note is quite scarce, with an original printing of just 384,000 notes; and the 2003A New York star note was released only in uncut sheets. Lot of 10 notes.
Estimated Value \$300 - 400

1870 1928-A, \$10 Federal Reserve Note. PCGS Very Fine 25 Fr-2001-G. A solid circulated Chicago district example, from this early series with the numbered district seal at left.
Estimated Value \$40 - 50

1871 1928-B, \$10 Federal Reserve Notes. DGS and LGS Pair. PCGS About New 53PPQ and Extremely Fine 40PPQ. Fr-2002-G. A great pair of Chicago \$10 FRNs that show the clear difference in Treasury seal color between these two varieties. Each is lightly circulated, but completely original and problem free for their respective grades. Lot of 2 notes.
Estimated Value \$80 - 100

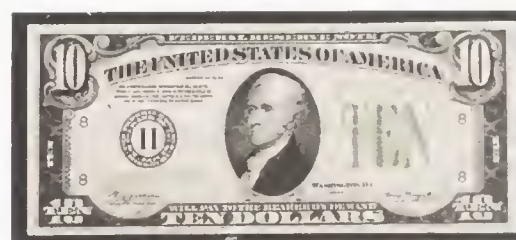

1872 1928-B, \$10 Federal Reserve Note. DGS Star Note. PCGS Very Fine 20. Fr-2002a-G*. A scarce star note from the Chicago district bank, with the dark green seal variety.
Estimated Value \$50 - 70

1873 1928-C, \$10 Federal Reserve Note. LGS. PCGS Very Fine 25. Fr-2003-G. This is a very scarce series in all grades, and was only printed for five districts (one of which, the Atlanta, is currently unknown). This Chicago example is free of any significant flaws and is ideal to fill a series or district set.
Estimated Value \$100 - 125

1874 1934, \$10 Federal Reserve Note. LGS. PCGS Choice New 63PPQ. Fr-2004-G. A vivid light green Treasury seal is displayed on this Chicago district \$10.
Estimated Value \$75 - 100

1875 1934, \$10 Federal Reserve Note. LGS Star Note. PCGS Fine 15. Fr-2004-G*. This replacement example from Chicago is definitely from the earlier light green Treasury seal print runs, and is free of all problems but for the typical signs of normal circulation for the grade.
Estimated Value \$50 - 70

1876 1934-A, \$10 Federal Reserve Notes. Two Examples. PCGS Very Choice New 64PPQ. Fr-2006-G. A pair of Chicago Feds from this series, both with the darker green Treasury seal as always seen on the 1934A series \$10s, but each seal clearly showing a different color shade on the two respective notes. Each note is purely original, so the color variation is from the normal printing process. Certainly an interesting pair that is worthy of closer study. Lot of 2 notes.
Estimated Value \$75 - 100

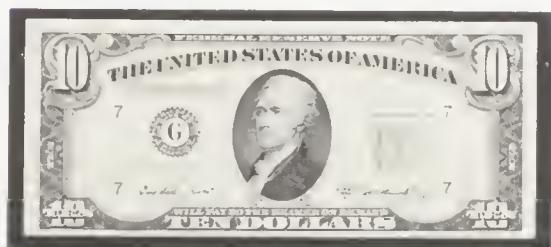

1877 1934-A, \$10 Federal Reserve Note. Star Note. PCGS Very Fine 20PPQ. Fr-2006-H. A perfectly original circulated example of this rare St. Louis star note, which is one of just a half-dozen pieces graded by either of the two major grading services.
Estimated Value \$150 - 200

1878 1934-C, \$10 Federal Reserve Note. Wide Face Star Note. PCGS Very Fine 25. Fr-2008-G*. A nice mid-grade circulated star note from the Chicago district.
Estimated Value \$50 - 70

- 1879 1950, \$10 Federal Reserve Notes. Wide and Narrow Pair. PCGS Very Choice New 64PPQ. Fr-2010-G.** A nice pair of matching near-Gem notes from the Chicago district, each displaying the two different back plate varieties. While not a changeover pair, the two notes bear close serial numbers just 58 numbers apart. Lot of 2 notes.
Estimated Value \$120 - 150

- 1880 1950, \$10 Federal Reserve Note. Narrow Star Note. PCGS Very Fine 20PPQ. Fr-2010-H*.** This very scarce St. Louis star note is the narrow back plate variety, and one of just two examples graded by PCGS Currency to date (the other is an error note). The marketplace has relatively ignored small size Federal Reserve Notes for many years, but there are plenty of signs that this is changing. New research combined with increased collector interest is creating increased demand, and previously unknown rarities such as this note will continue to see strong demand as the market adjusts to the reality that some of these early small size Feds are indeed far rarer than was previously suspected.
Estimated Value \$150 - 200

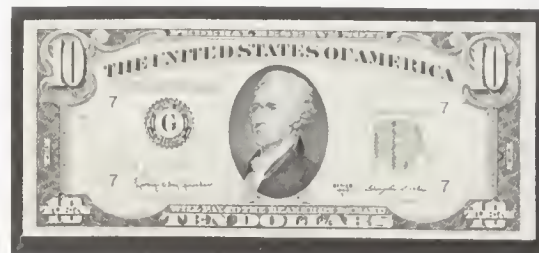

- 1881 1950-A, \$10 Federal Reserve Note. Star Note. PCGS Choice About New 58PPQ. Fr-2011-G*.** A light center bend is the only grade-limiting factor on this fully original and boldly embossed Chicago star note.
Estimated Value \$125 - 175

- 1882 1950-A, \$10 Federal Reserve Note. PCGS Gem New 66PPQ. Fr-2011-G.** This nearly flawless Gem from Chicago is boldly embossed and displays the unique "orange peel" texture that original notes from the 1950s dated series are known to display.
Estimated Value \$75 - 100

- 1883 1950-B, \$10 Federal Reserve Note. Star Note. PCGS Extremely Fine 40PPQ. Fr-2012-G*.** A nice, original Chicago star note with a few light bends that define the grade.
Estimated Value \$75 - 100

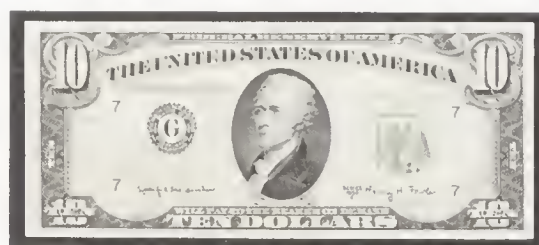

- 1884 1950-B, \$10 Federal Reserve Note. PCGS Very Choice New 64PPQ. Fr-2012-G.** An attractive near-Gem from the Chicago district G-F serial number block.
Estimated Value \$40 - 60

- 1885 1950-C, \$10 Federal Reserve Note. Star Note. PCGS Extremely Fine 40 Apparent. Fr-2013-G*.** Although a small edge tear is noted by PCGS on the holder as the reason for the apparent grade, this Chicago star note appears very nice for a lightly circulated example and is otherwise completely original and problem free.
Estimated Value \$50 - 75

- 1886 1950-D, \$10 Federal Reserve Note. Star Note. PCGS Gem New 66PPQ. Fr-2014-G*.** This spectacular Gem Chicago star note is tied for the finest graded by PCGS Currency, as it is one of just three examples (with none finer) graded 66PPQ to date.
Estimated Value \$200 - 300

- 1887 1950-D, \$10 Federal Reserve Note. PCGS Gem New 65PPQ. Fr-2014-G.** Boldly embossed, nicely centered, and fully original. From the Chicago district bank.
Estimated Value \$50 - 70

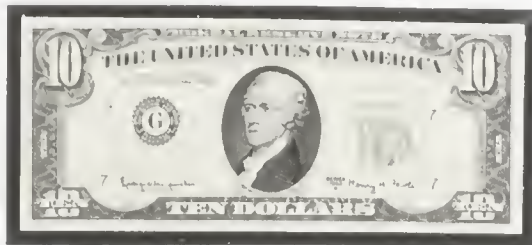

- 1888 1950-E, \$10 Federal Reserve Note. PCGS Gem New 65PPQ. Fr-2015-G.** This Chicago district example is boldly embossed, with fully original "orange peel" paper texture, and outstanding eye appeal. The 1950E series is by far the scarcest of the 1950-dated series, and was printed for only three of the twelve district banks.
Estimated Value \$100 - 150

- 1889 1950-E, \$10 Federal Reserve Note. PCGS Choice About New 58PPQ. Fr-2015-G.** This lovely Chicago example, which is held back in grade by only a light center fold, is from the much scarcer G-I serial number block. A quick perusal of the population reports from both of the two major grading services suggests that the G-I block is scarcer than the G-H block by a factor of approximately four to one.
Estimated Value \$100 - 150

- 1890 1950-E, \$10 Federal Reserve Note. Misalignment Error. PCGS Very Choice New 64PPQ. Fr-2015-G.** A minor misalignment of the overprint is present on this scarce 1950E series Chicago \$10, with the right serial number running just into the border design at right.
Estimated Value \$75 - 100

- 1891 1950-E, \$10 Federal Reserve Note. Misalignment Error. PCGS Choice New 63PPQ. Fr-2015-G.** This series was actually run through four different printings, as opposed to most small size notes which were prepared with three printings; the series date, Treasury signatures, and other minor elements were applied separately. The series date and signatures are clearly too far south on this example, drifting slightly into the border design.
Estimated Value \$75 - 100

- 1892 1963-A, \$10 Federal Reserve Notes. Three Different Serial Number Blocks, all Graded by PCGS. Fr-2017-G.** A complete set of 1963A Chicago \$10 FRNs by serial number block, each graded by PCGS Currency. The G-A block grades Gem New 66PPQ, the G-B block Very Choice New 64PPQ, and the G-C block Gem New 65PPQ. Lot of 3 notes.
Estimated Value \$120 - 150

- 1893 1963-A, \$10 Federal Reserve Note. PCGS Superb Gem New 67PPQ. Fr-2017-G.** This "top pop" example from Chicago is tied for the finest certified by either major grading service, one of only 7 such examples graded 67PPQ by PCGS (two have been graded 67EPQ by PMG).

Estimated Value \$75 - 100

- 1894 1969, \$10 Federal Reserve Notes. Chicago Block Set Pair. PCGS Gem New 66PPQ. Fr-2018-G.** This spectacular Gem pair represents both of the serial number blocks issued from Chicago, the G-A and G-B blocks. The G-B block example is currently tied with one other note as the finest graded by PCGS. Lot of 2 notes.

Estimated Value \$100 - 150

- 1895 1969-C, \$10 Federal Reserve Note. PCGS Gem New 65PPQ. Fr-2021-G.** A lovely Gem from Chicago, fully embossed and completely original. This note is one of just five such examples graded by PCGS at the 65PPQ grade level, with only two (both 66PPQs) any finer.

Estimated Value \$60 - 80

- 1896 1977, \$10 Federal Reserve Note. Star Note. PCGS Very Choice New 64PPQ. Fr-2023-B*.** A beautifully original Chicago star note, with incredible paper embossing throughout the design.

Estimated Value \$75 - 100

- 1897 1977, \$10 Federal Reserve Note. PCGS Gem New 65PPQ. Fr-2023-G.** This lovely Chicago Gem displays incredible embossing throughout, both of the design and the overprint.

Estimated Value \$40 - 60

- 1898 1977-A, \$10 Federal Reserve Note. PCGS Gem New 65PPQ. Fr-2024-G.** Another lovely Gem Chicago \$10 FRN, this from the 1977A series.

Estimated Value \$40 - 60

- 1899 1981, \$10 Federal Reserve Note. PCGS Gem New 65PPQ. Fr-2025-H.** This is the only St. Louis \$10 from this series to achieve the 65PPQ grade from PCGS, with only two examples finer (one a 66PPQ, and one a 67PPQ).

Estimated Value \$50 - 75

- 1900 1981, \$10 Federal Reserve Note. PCGS Very Choice New 64PPQ. Fr-2025-L.** This near-Gem is from the scarcer of the two San Francisco serial number blocks, with the L-A block valued higher than the L-B block in the most recent edition of the Schwartz & Lindquist reference.

Estimated Value \$50 - 70

- 1901 1981-A, \$10 Federal Reserve Note. PCGS Very Choice New 64PPQ. Fr-2026-B.** Although undoubtedly there are more notes in existence from this series that were saved at the time of issue than are included in the current population reports of the two major grading services, it is intriguing that PCGS and PMG have graded just seven notes combined from the 1981A New York district. This pleasing near-Gem is all alone in second place at PCGS, with a single 65PPQ the only higher graded example.

Estimated Value \$50 - 75

- 1902 1981-A, \$10 Federal Reserve Note. PCGS Gem New 66PPQ. Fr-2026-J.** While the relative scarcity of notes from this series is known to collectors, exactly how rare some of these notes are remains a mystery. The facts on this note is intriguing--it is the only Kansas City \$10 from the 1981A series graded by PCGS Currency to date. PMG has, meanwhile, graded three examples, two circulated pieces and a 64EPQ. As these notes become more popular with collectors, the details will emerge as to which notes are truly rare. After more than a decade, this note remains the finest known for both of the major grading services. It is unlikely that there are many more ungraded examples in existence that will challenge it for eye appeal or technical merit.

Estimated Value \$100 - 150

- 1903 1985, \$10 Federal Reserve Note. PCGS Gem New 65PPQ. Fr-2027-E.** A nice Gem from the Richmond district, with cavernous embossing that can easily be seen through the holder.

Estimated Value \$50 - 75

- 1904 1988-A, \$10 Federal Reserve Note. PCGS Gem New 66PPQ. Fr-2028-E.** Because collectors, for so many years, have ignored, in a relative sense, small size Federal Reserve Notes as a whole (particularly in denominations from \$5 to \$100), not many of these later issued have reached the grading services. That being said, it remains clear that there simply aren't many of these that were saved in high grades at the time of issue. To date, PCGS has graded only three examples of this series from the Richmond district, with this the finest of the three. PMG, by comparison, has graded only five such examples in all uncirculated grades, which means that even without duplication (by means of crossovers) there are still, at most, eight certified uncirculated examples of this issue known. The fact that a grade rarity such as this isn't expected to bring four figures or more is an intriguing marketplace inequality which may be changing, as collectors have flocked to these notes in recent years as Silver Certificates, Legal Tender Notes, and other "obsolete" series have become more expensive to collect.

Estimated Value \$75 - 100

- 1905 1995, \$10 Federal Reserve Note. PCGS Gem New 66PPQ. Fr-2031-B.** A high grade example from the New York district, one of only three 66PPQs graded by PCGS currency with just one (a 67PPQ) finer.

Estimated Value \$50 - 75

- 1906 1999, \$10 Federal Reserve Note. Star Note. PCGS Superb Gem New 68PPQ. Fr-2033-D*.** This superb Cleveland star note is tied with eight others as the finest graded by PCGS.

- 1907 2003, \$10 Federal Reserve Note. Star Note. PCGS Superb Gem New 67PPQ. Fr-2037-D*.** A lovely example with broad margins and outstanding centering, from the Cleveland district bank.

Estimated Value \$60 - 80

- 1908 1928, \$20 Federal Reserve Note. PCGS Very Fine 25 Fr-2050-E.** An early numbered district seal example from Richmond in an affordable but appealing circulated grade.

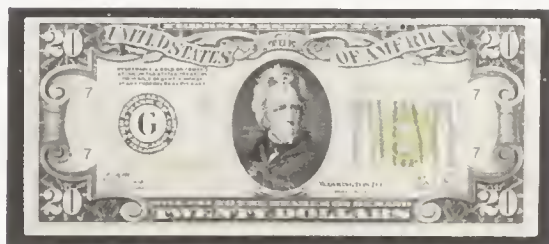

Estimated Value \$75 - 100

- 1909 1928-A, \$20 Federal Reserve Note. PCGS Very Fine 30PPQ. Fr-2051-G.** A Chicago district \$20 with moderate circulation but fully original paper and excellent eye appeal, with no mentionable flaws whatsoever for the grade.
Estimated Value \$100 - 125

- 1910 1928-B, \$20 Federal Reserve Note. DGS Pair. PCGS About New 53PPQ and Very Fine 30PPQ. Fr-2052a-G.** This pair of dark green seal \$20s from Chicago display two different color shades of the Treasury seal. The lower grade piece has a slightly lighter seal color, which, while not light enough to qualify as an LGS variety, clearly is of a transitional seal color and could be designated as such. Lot of 2 notes.
Estimated Value \$125 - 175

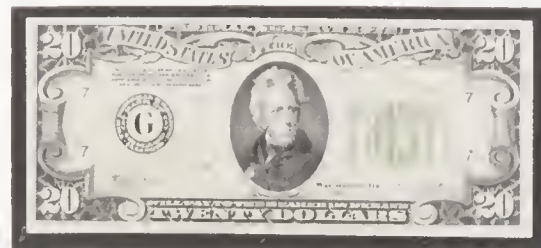

- 1911 1928-B, \$20 Federal Reserve Note. PCGS Extremely Fine 40PPQ. Fr-2052a-H.** A fully original St. Louis DGS example, with three folds that define the grade but plenty of embossing, excellent eye appeal, and overall aesthetic merit to spare.
Estimated Value \$70 - 90

- 1912 1928-C, \$20 Federal Reserve Note. LGS. PCGS Very Fine 25PPQ. Fr-2053-G.** This is a pleasing, fully original circulated example of a very scarce series which was printed for only two district banks, Chicago and San Francisco. While this Chicago \$20 is from the more "common" of the two districts, it is in an uncommon state of preservation--a completely original and problem-free note in a moderately circulated grade. Undoubtedly a note that will receive quite a bit of interest from collectors, and one that will likely inspire spirited bidding before the hammer falls as there simply aren't enough notes from this series available, with this quality of preservation in a mid-range circulated grade, to meet collector demand.
Estimated Value \$500 - 700

- 1913 Three Different 1934 \$20 FRN DGS Mules from Different Districts. Fr-2054-F.** Three different dark green seal mule variety examples, all graded Choice About New 55PPQ by PCGS: Fr. 2054am-F (Atlanta) 1934 \$20 DGS Mule; Fr. 2054am-I (Minneapolis) 1934 \$20 DGS Mule; and Fr. 2054am-K (Dallas) 1934 \$20 DGS Mule. Lot of 3 notes.
Estimated Value \$120 - 150

- 1917 1934-A, \$20 Federal Reserve Note. PCGS Gem New 65PPQ. Fr-2055-G.** Pleasing, well centered, and fully original. From the Chicago district bank.
Estimated Value \$75 - 100

- 1918 1934-B, \$20 Federal Reserve Note. PCGS Very Choice New 64PPQ. Fr-2056-E.** This near-Gem example from the Richmond district just misses the centering required for a higher grade.
Estimated Value \$75 - 100

- 1919 1934-C, \$20 Federal Reserve Note. Old Back. PCGS Choice New 63PPQ. Fr-2057-B.** This New York district \$20 has the old back design that lacks the balcony on the vignette of the White House.
Estimated Value \$50 - 70

- 1920 1950-B, \$20 Federal Reserve Note. PCGS Gem New 66PPQ. Fr-2061-G.** Outstanding originality and broad, even margins enhance the appeal of this Gem from Chicago.
Estimated Value \$100 - 125

- 1921 1950-B, \$20 Federal Reserve Note. Star Note. PCGS Extremely Fine 40PPQ. Fr-2061-G*.** A few light folds define the grade on this lightly circulated and fully original Chicago \$20 star note.
Estimated Value \$75 - 100

- 1922 1950-B, \$20 Federal Reserve Note. Star Note. PCGS Fine 15. Fr-2061-I*.** A solid circulated example of this scarce Minneapolis district star note.
Estimated Value \$90 - 120

- 1923 1950-D, \$20 Federal Reserve Note. PCGS Gem New 65PPQ. Fr-2063-G.** This Chicago \$20 is from the scarcer G-D serial number block, and is tied with one other example as the "top pop" from this block with no other examples graded by PCGS any finer.
Estimated Value \$100 - 150

- 1924 1950-D, \$20 Federal Reserve Note. PCGS Gem New 65PPQ. Fr-2063-G.** Perfectly original and pack fresh, from the Chicago district bank.
Estimated Value \$75 - 100

- 1925 1950-E, \$20 Federal Reserve Note. PCGS Gem New 66PPQ. Fr-2064-G.** Only three district banks issued this scarce 1950E \$20 series, New York, Chicago, and San Francisco. This Chicago example is an ideal Gem, with broad margins, excellent originality, and bold embossing evident through the holder. PCGS has graded only one other example in 65PPQ, with just three finer to date.
Estimated Value \$150 - 200

- 1926 1969-A, \$20 Federal Reserve Note. PCGS Gem New 66PPQ. Fr-2068-G.** This Chicago district \$20 is near the top of the population report, as PCGS has graded just three examples at this grade level and only one finer (a 67PPQ).

Estimated Value \$80 - 100

- 1928 1974, \$20 Federal Reserve Note. Star Note. PCGS Choice New 63PPQ. Fr-2071-C*.** This Philadelphia star Twenty is scarce in high grades, as PCGS has graded only this note and one other in 63PPQ with just one 64PPQ topping it for finest known honors. This centering, which is off just a trifle, is the only graded-limiting factor.
Estimated Value \$150 - 200

- 1929 1981, \$20 Federal Reserve Notes. Two Different Blocks. PCGS Gem New 65PPQ and Very Choice New 64PPQ Fr-2073-G.** Two different serial number blocks are represented in this certified pair, with the G-B block \$20 grading 65PPQ and the G-D block \$20 a 64PPQ. The G-B example is one of only 2 examples graded 65PPQ by PCGS, with just one note finer. The G-D block note is a bit scarcer, and is all alone at the top of the population report with no notes graded any finer by PCGS. Lot of 2 notes.
Estimated Value \$120 - 160

- 1930 1981-A, \$20 Federal Reserve Note. PCGS Very Choice New 64PPQ. Fr-2074-J.** This note is a perfect example of how many later-date rarities have flown under the radar for so many years, and it is the lone, single Kansas City district example from this scarcer series that has been graded by PCGS to date in any grade. The centering falls just short of a Gem grade, otherwise the note is as fresh and original as the day it was printed.
Estimated Value \$100 - 150

- 1931 High Grade Certified 20 FRN Group. Fr-2075-E.** A nice group of PCGS graded \$20 Feds, a few of which are at or near the top of the PCGS Currency Population Report of graded examples. Estimated Value \$100 - 125

- 1937 1950-E, \$50 Federal Reserve Note. PCGS Very Fine 30. Fr-2112-L.** This series is quite scarce in all grades and for all three districts for which it was printed. In fact, PCGS has graded only six notes from the San Francisco district, including this example, in all grades combined. This is a pleasing mid-grade circulated piece with no mentionable problems.
Estimated Value \$150 - 200

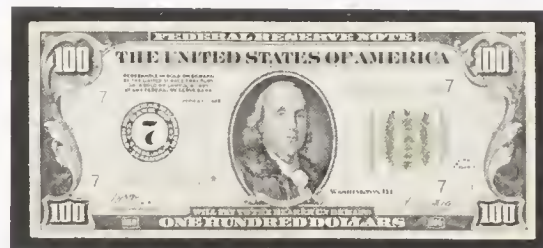

- 1938 1974, \$50 Federal Reserve Note. PCGS Gem New 65PPQ. Fr-2118-G.** Of the five Chicago district notes graded by PCGS from the 1974 series, this example is far and away the finest known. In fact, it is the only uncirculated example graded by PCGS to date. It is boldly original, well centered, and as nice as could be expected for the grade.
Estimated Value \$150 - 250

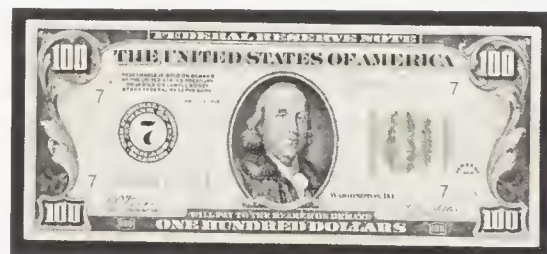

- 1939 1977, \$50 Federal Reserve Note. Star Note. PCGS Very Choice New 64PPQ. Fr-2119-G*.** This Chicago district \$50 star note is one of just three uncirculated examples graded by either of the two major grading services combined, with this the only 64PPQ graded by PCGS with just one other (a 66PPQ) finer. (PMG has also graded a 65EPQ.) It is boldly original, with its only minor flaw being the centering that is just a trifle off and prevents a Gem grade.
Estimated Value \$150 - 200

- 1940 2004, \$50 Federal Reserve Note. FW Star Note. PCGS Gem New 65PPQ. Fr-2128-G*.** A lovely Gem star note from the Chicago district.
Estimated Value \$100 - 125

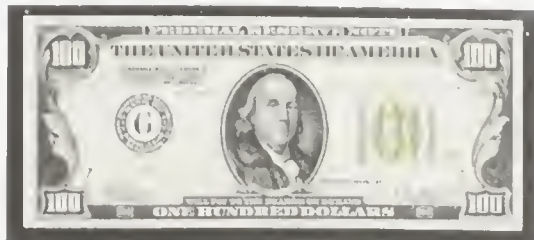

- 1941 1928, \$100 Federal Reserve Note. Star Note. PCGS Very Fine 25. Fr-2150-G*.** This star note \$100 is from the Chicago district, and is solid for the grade with original paper surfaces. Early star note \$100s are rare in higher grades, as they simply weren't saved in large numbers at the time of issue and the survival of even a single example is a matter of chance.
Estimated Value \$400 - 500

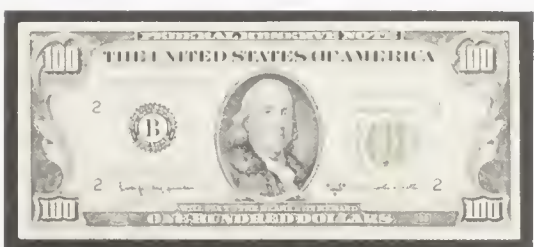

- 1942 1928, \$100 Federal Reserve Note. PCGS Very Fine 30. Fr-2150-G.** An attractive mid-grade circulated example from the Chicago district and the first small size \$100 Federal Reserve Note series.

- 1945 1950, \$100 Federal Reserve Note. Mule. PCGS Very Choice New 64. Fr-2157m-G.** This Chicago district C-note is the mule variety, with a micro back plate number that was meant for the earlier 1934-dated series notes.
Estimated Value \$175 - 225

- 1946 1950-D, \$100 Federal Reserve Note. Star Note. PCGS Extremely Fine 45PPQ. Fr-2161-B*.** This New York star note is rare in all grades, as it is one of only two pieces graded in all grades by PCGS Currency to date. In fact, neither of the two major grading services have graded a single uncirculated example, so this is one of the nicest examples that is obtainable. It is pleasing for the grade, with original paper surfaces and just a few light bends that keep it from a higher grade.
Estimated Value \$250 - 350

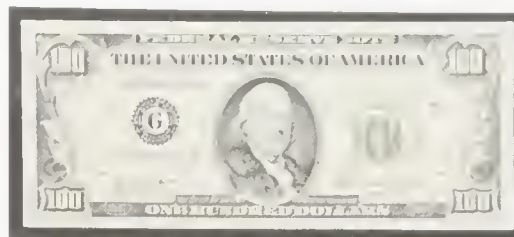

- 1947 1950-D, \$100 Federal Reserve Note. PCGS Gem New 65PPQ. Fr-2161-G.** A pack-fresh Gem with excellent centering, nice eye appeal, and bold original embossing. From the Chicago district bank.
Estimated Value \$175 - 225

- 1948 1950-E, \$100 Federal Reserve Note. PCGS Very Fine 30. Fr-2162-G.** The 1950E \$100 series was printed for only three district banks, and the Chicago notes were by far the lowest production with only 576,000 pieces originally printed.
Estimated Value \$150 - 200

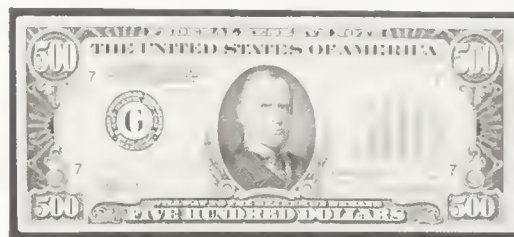

- 1949 1969, \$100 Federal Reserve Note. Star Note. PCGS Extremely Fine 40PPQ. Fr-2164-G*.** Three folds define the grade on this otherwise strictly original, boldly embossed star note \$100 from the Chicago district.

Estimated Value \$175 - 225

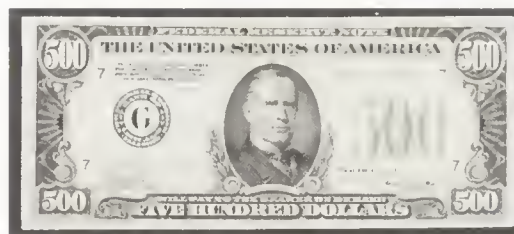

- 1951 1969-C, \$100 Federal Reserve Note. Star Note. PCGS Extremely Fine 45. Fr-2166-G*.** This lightly circulated star note \$100 is from the Chicago district.
Estimated Value \$150 - 200

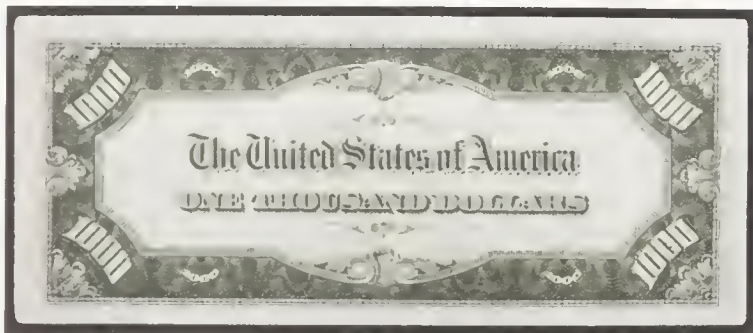

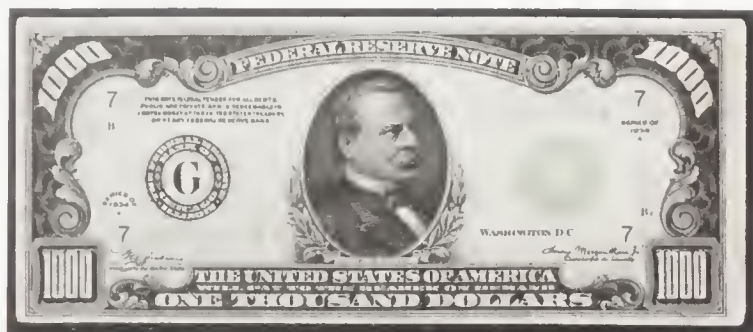

- 1952 1981, \$100 Federal Reserve Note. PCGS Superb Gem New 67PPQ. Fr-2169-G.** This Chicago \$100 is tied for the finest example known from this district bank, with just one other example graded 67PPQ by PCGS and none finer at either grading service. In fact, PCGS has graded just four examples in all grades combined, giving a good clue as to the overall scarcity.
Estimated Value \$200 - 300

- 1953 1934, \$500 Federal Reserve Note. Fr-2201-A. Fine.**
Estimated Value \$650 - 700

Estimated Value \$900 - 1,000

- 1955 1934, \$1000 Federal Reserve Note. Fr-2211-A. The note is in VF to EF condition.** The right side shows some wear, but still a nice looking note.
Estimated Value\$1,500 - 1,600

Lot of 3 notes.
Estimated Value\$75 - 100

- 1957 1935-A, \$1 World War II Emergency Note. Hawaii. PCGS Very Choice New 64PPQ. Fr-2300. KL-1609.** A lovely near-Gem with great eye appeal and outstanding original embossing.
Estimated Value\$120 - 150

Estimated Value\$200 - 250

- 1959 1935-A, \$1 World War II Emergency Note. North Africa. PCGS Very Fine 35PPQ. Fr-2306. KL-1610.** A fully original, moderately circulated example from the I-C block.

Estimated Value\$50 - 70

- 1961 1934-A, \$5 World War II Emergency Note. North Africa. PCGS Very Fine 35PPQ. Fr-2307. KL-1962.** This lovely, fully original, and problem-free North Africa \$5 has bright paper, outstanding eye appeal, and appears at first glance to be fully XF or better. This is the type of note that usually sells for a premium over the assigned grade, simply because of its "look" that is superior to most average notes that might receive the same technically accurate grade.
Estimated Value\$75 - 100

- 1962 1934-A, \$10 World War II Emergency Note. North Africa Star Note. PCGS Fine 12 Apparent. Fr-2309*. KL-2260*.** This star note \$10 has a few very minor scuffs near the portrait on the face, and a couple of tiny, nearly insignificant rust spots on the back, otherwise it's a completely solid and quite decent-looking example of a scarce replacement note that is seldom seen in higher grades.
Estimated Value\$150 - 200

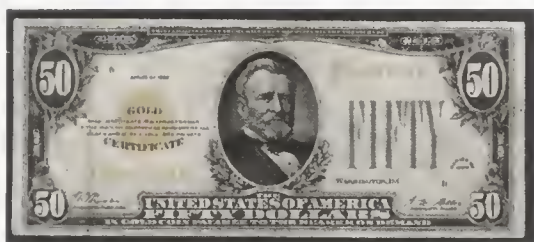

- 1963 1934-A, \$10 World War II Emergency Note. North Africa. PCGS Choice About New 58PPQ. Fr-2309. KL-2260.** A light bend away from a much higher grade, this fully original piece possesses eye appeal that would fully match most examples grading Choice New or even better.
Estimated Value\$125 - 175

- 1964 1934-A, \$10 World War II Emergency Note. North Africa Star Note. PCGS Very Fine 25 Apparent. Fr-2309*. KL-2260*.** Although given an apparent grade by PCGS because of the missing bottom left corner tip and a light partial teller stamp on the face, this is a 98% good-looking circulated example of a star note that is difficult to locate in any grade above VF.
Estimated Value\$100 - 150

- 1965 1934-A, \$10 World War II Emergency Note. North Africa. PCGS Very Fine 35PPQ. Fr-2309. KL-2260.** This lightly circulated piece has bright colors, bold original embossing, and all the eye appeal in the world for the assigned grade.

Estimated Value \$60 - 80
- 1967 1934-A, \$10 World War II Emergency Note. North Africa. PCGS Very Fine 30. Fr-2309. KL-2260.** A solid mid-grade example of this popular issue.
Estimated Value \$60 - 80
- 1968 1928, \$10 Gold Certificate. PCGS Very Fine 25. Fr-2400. KL-1963.** Supplies of decent circulated small size Gold Certificates seem to have dried up in recent years, as the demand for these relics of a bygone age of financial history continue to enjoy widespread demand.
Estimated Value \$100 - 125
- 1969 1928, \$20 Gold Certificate. PCGS Very Fine 20PPQ. Fr-2402. KL-2261.** This mid-grade circulated example is fully original and problem-free for the grade, as defines the "PPQ" designation for "premium paper quality" assigned by PCGS, and it displays only the typical light soiling that is expected from a note that spent some time in circulation.
Estimated Value \$125 - 150

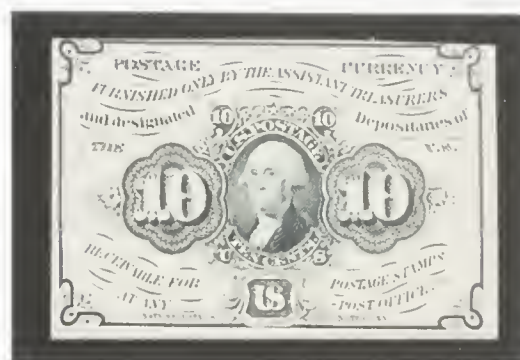

- 1970 1928, \$50 Gold Certificate. Fr-2404. KL-2525.** This Fifty is a pleasing circulated example with a trivial edge split in the left margin, a few tiny pinholes, and a couple of unobtrusive teller stamp marks on the back. The few minor flaws are mentioned solely for accuracy as none of them individually detracts from the overall appeal. **The note will grade Fine to VF.**
Estimated Value \$175 - 225

FRACTIONAL CURRENCY

- 1971 Second Issue 50¢ Fiber Paper Experimental Face. PCGS Choice New 63 Apparent.** A bold example with the typical half-moon cancellations, some staining on the back the reason for the "apparent" grade from PCGS.
Estimated Value \$150 - 200

PATTERNS

1836 PATTERN DOLLAR. SILVER

Enlargement

2004 1836 Pattern Dollar. Silver Plain Edge. Judd-60. Pollock-65 Rarity 1 Restrike Korein 413.1 Grams. PCGS graded Proof 63. Lovely gunmetal-gray toning on both sides with clean fields and devices. A particularly handsome example of this prized issue, which is so often found clean bright or with dipped out surfaces--this regal antique example will certainly please any specialist and is worthy of a strong bid. The mirror fields are well preserved and the eye appeal is excellent. **Pop 20; 9 finer, 7 in 64, 2 in 64+.** (PCGS # 11227)
Estimated Value \$20,000 - 22,000

1836 PATTERN DOLLAR. SILVER

Enlargement

2005 1836 Pattern Dollar. Silver, plain edge. Judd-60, Pollock-65, Rarity 1. PCGS graded Proof 61. Mostly untuned with bight silver centers and a touch of delicate golden russet around the rims. This is one of the most popular of the Gobrecht pattern coins as it offers the cameo design of the Liberty Seated obverse combined with the eagle flying up and away through the intricate star field. Finding one this nice and attractive has long been a challenge for collectors. This one offers great appeal without breaking the bank. **Pop 23; 70 finer at PCGS. (PCGS # 11225)**
Estimated Value \$19,000 - 20,000

GEM PROOF 1852 PATTERN GOLD DOLLAR

Enlargement

2006 1852 Pattern Gold Dollar. Copper-Nickel, Plain Edge. Judd-140. Pollock-167 Low Rarity 7. PCGS graded Proof 66. CAC APPROVED Nice light toning. A lovely coin. These pattern pieces were struck around 1859 using a reverse die that shows small pairs of leaves with berries encircling that side. The large central hole of this design didn't leave much room for devices, so a simple date was placed at the base of the obverse with U.S.A. noted above. The toning here has a wonderful antique appearance, and the surface quality is amazing. One of the absolute finest seen of this challenging issue. **Pop 1; none finer at PCGS. (PCGS # 11589)**
Estimated Value\$8,000 - 9,000

1863 PATTERN EAGLE GILT COPPER

Enlargement

2007 1863 Pattern Eagle. Gilt copper, reeded edge. Judd-350, Pollock-422, Rarity 6. PCGS graded Proof 62. CAC APPROVED Well struck. This is the normal dies of the 1863 gold eagle save for the addition of the experimental Motto on a raised ribbon on the reverse. The Motto states GOD OUR TRUST, which was one of the proposals during this period. Eventually the Motto was changed to IN GOD WE TRUST and formally adopted on all coinage large enough to support it starting in 1866. This is an important step in that direction! A rarely seen or offered pattern that is a true specialist's coin. **Pop 1; none finer at PCGS. The only example graded at PCGS for the variety.**
Estimated Value\$6,000 - 7,000

GEM PROOF 1868 PATTERN TEN CENTS

Enlargement

2008 1868 Pattern Ten Cents. Nickel, plain edge. Judd-647, Pollock-720, Low Rarity 6. PCGS graded Proof 66. CAC APPROVED A very choice example for this interesting pattern. The strike is needle sharp throughout, with all of Liberty's curls fully formed along with the star centers. The reverse too is bold and crisp, and free of specks or spots that so often mar these early Pattern coin. The obverse design is of the Large Cent, which was last struck in 1857, and here the design appears again, not on a cent, but on a ten cent coin made of nickel. The reverse was similar to that on the original Large Cent of 1857, but the wreath is open and the denomination is prominently noted. These 1868 Pattern pieces have always been quite popular with collectors from many different series. **Pop 2; 3 finer in 67. (PCGS # 60865)**
Estimated Value \$5,000 - 6,000

1870 PATTERN HALF DOLLAR. COPPER

Enlargement

2009 1870 Pattern Half Dollar. Copper, plain edge. Judd-936, Pollock-1042, Rarity 7. PCGS graded Proof 65 Red & Brown PQ. CAC APPROVED. Lots of mint red visible. The obverse has a full figure of Liberty seated on a rock, holding a shield draped with a ribbon inscribed LIBERTY in her right hand while her left holds a short laurel branch. A long pole supporting the cap of freedom rests against her arm. She is surrounded by 13 stars with the date 1870 placed below. The reverse design is that of the current issue half dollar. A rare and desirable pattern not only for its quality, but for the significant amount of residual red remaining! **Pop 4; none finer at PCGS. (PCGS # 71182)**
Estimated Value \$5,000 - 5,500

1871 PATTERN HALF DIME. COPPER

Enlargement

2010 1871 Pattern Half Dime. Copper, reeded edge. Judd-1060, Pollock-1195, Rarity 7. PCGS graded Proof 65 Red & Brown PQ. CAC APPROVED. Lovely red and brown colors. The obverse design is by James B. Longacre, who had passed away in 1869, but apparently this Indian Princess style was employed by William Barber in 1871, and paired with the usual Standard Silver reverse die to create these patterns. The Indian Princess obverse, here seen without stars, is most elegant, and especially so when found the gorgeous toning as noted here. A rarely offered pattern! The marks are on the holder. **Pop 1; 3 finer, 1 in 65+, 2 in 66. (PCGS # 71319)**
Estimated Value \$4,000 - 5,000

1875 PATTERN TWENTY CENTS

Enlargement

2011 1875 Pattern Twenty Cents. Copper, plain edge. Judd-1400, Pollock-1543, Rarity 7. PCGS graded Proof 63 Brown. PQ. Nice even brown toning that is deep and free of spots. This pattern style is known as the "Liberty by the Seashore" for the ocean scene in the background complete with a ship steaming along. Notice the artistic blunder on the sailing ship as the smoke from the boilers is blowing one direction while the billowy sails are going the other direction--the winds must have been really wrapped around and swirling that day! These rare patterns have always been extremely popular with collectors, not only for the elegant design, but for this blunder. There are about a dozen known of this variety in Copper, and this Choice example will certainly please any specialist who is seeking an example. Housed in a First Generation Holder. **Pop 1; 3 finer, 1 in 64, 1 in 65, 1 in 66+.** (PCGS # 61707)
 Estimated Value \$4,500 - 5,000

1880 COPPER PATTERN HALF EAGLE

Enlargement

2012 1880 Pattern Half Eagle. Copper, Reeded Edge. Judd-1663. Pollock-1863 Rarity 8. PCGS graded Proof 65 Brown PQ. CAC APPROVED Lovely brown colors throughout. There are believed to be only three examples of this pattern issue, which of course is a pattern or trial piece because a copper planchet was used for what should be a \$5 gold piece, and struck with the regular issue gold dies. Of the three known, one resides in the Connecticut State Library and the other resides in the Simpson Collection. Hence, this is the only likely available coin anytime soon if you desire to own a J-1663 pattern! Don't miss out. **Pop 1; none finer at PCGS. The only example graded at PCGS.** (PCGS # 62048)
 Estimated Value \$15,000-UP

\$1 GOLD

\$1 Liberty

GEM UNC 1853 \$1 GOLD LIBERTY

Enlargement

- 2013 1853. NGC graded MS-67.** Housed in an Old Style Holder. Light even toning and boldly struck. Great eye appeal with phenomenal surfaces that are virtually pristine. Although a plentiful date, at this lofty grade there are just a handful that can compare, and none are graded finer. **Pop 9; none finer at NGC . (PCGS # 7521)**
Estimated Value \$12,000 - 13,000

UNC 1853-C \$1 GOLD LIBERTY

Enlargement

- 2014 1853-C. PCGS graded MS-62.** Untoned and lustrous. This is a challenging Charlotte Mint coin to find in all grades, and many of those that do survive show planchet chips or splits, this one has only one tiny flaw near the top of the reverse. The strike is fairly sharp for this issue as well, and the surfaces are pleasing for the grade assigned. Only 11,515 struck. **Pop 14; 5 finer in 63. (PCGS # 7522)**
Estimated Value \$5,000 - 5,500

\$1 Indian

SCARCE 1855-C \$1 GOLD INDIAN

Enlargement

- 2015 1855-C. PCGS graded AU-53.** Lot of mint luster evident, however struck on a faulty planchet with a few shallow chips out of the fields, this feature is common to this issue and mint. An attractive coin that should please any Charlotte Mint or Gold dollar collector for its luster and strike. Only 9,803 struck. **Pop 15; 22 finer at PCGS. (PCGS # 7533)**
Estimated Value \$6,000 - 6,500

Enlargement

- 2016 1855-O. NGC graded AU-55.** Only 55,000 minted and well struck for this scarce New Orleans issue. The surfaces are satin smooth and offer little more than a few trivial marks from brief circulation. The eye appeal is high for this early gold dollar! Nice golden toning. **(PCGS # 7535)**
Estimated Value \$1,500 - 1,600

GEM UNC 1870-S \$1 GOLD INDIAN

Enlargement

- 2017 1870-S. NGC graded MS-65.** Well struck and untuned with flashy luster and ample mint frost on the devices. The open fields are quite clean, with a few tiny scuffs and nicks that are not too distracting. This is one of the tougher mint-marked dates from the Gold dollar series, not only due to the tiny mintage and high attrition rate, but for the demand from many collectors who seek a high grade example. This one is high among the finest known. Only 3,000 struck. **Pop 3; none finer at NGC. (PCGS # 7570)**
Estimated Value \$16,000 - 18,000

Enlargement

2018 1873. Open 3. NGC graded MS-63 Prooflike. A nice untuned coin that shows strong reflectivity in the fields and well frosted devices. The surfaces are pleasing too. **Pop 11; 2 finer in 64.**
Estimated Value\$900 - 1,000

GEM 1878 \$1 GOLD INDIAN

Enlargement

2019 1878. PCGS graded MS-66 PQ. CAC APPROVED Fully white with reflective surfaces. Most of the Gold dollars in this era have low mintages, here only 3,000 struck in 1878, and when compared with the millions of silver dollars struck this year puts things into a different perspective. Gems like this are highly collectible and popular with collectors for they offer great beauty as well as rarity in abundance. **Pop 5; 2 finer, 1 in 66+, 1 in 67. (PCGS # 7579)**
Estimated Value\$5,000 - 5,500

SUPER GEM 1879 \$1 GOLD INDIAN

Enlargement

2020 1879. PCGS graded MS-67 PQ. CAC APPROVED The obverse has prooflike fields. Well struck and choice. Only 3,000 examples minted and this is one of the very finest certified, in fact it is tied at the top with seven others for this date and mint. The strike is bold and Liberty's head is well frosted by the dies. Notice too how splendid the fields are, utterly free of contact! It would be hard to even imagine a finer example of this tough date and mint. **Pop 8; none finer at PCGS. (PCGS # 7580)**
Estimated Value\$7,000 - 7,500

NEAR PERFECT 1881 \$1 GOLD INDIAN

Enlargement

2021 1881. PCGS graded MS-68 PQ. CAC APPROVED Mostly untuned and a solid gem coin with vibrant satin luster throughout. Only 7,620 struck and this is one of the finest certified by PCGS and narrowly topped by just a few pieces. **Pop 39; 5 finer, 4 in 68+, 1 in 69. (PCGS # 7582)**
Estimated Value\$10,000 - 11,000

\$2.50 GOLD

\$2.50 Capped Bust

2022 1798. Close Date PCGS graded Genuine XF Details Cleaning. Only 1,094 pieces struck with less than 40 examples estimated to have survived. A very popular date that is difficult to find in any grade. Notice the size of the digits in the date, the 79 are large while the 18 are much smaller, just what was needed to fit them under the bust! So few of these exist if you really desire one, its best to secure whatever you can as these are seldom offered in any grade. **(PCGS # 97649)**
Estimated Value\$3,000 - 3,500

1804 \$2.50 CAPPED BUST. 14 STARS

- 2023 1804. 14 Stars On Reverse PCGS graded Genuine AU Details BD-2 Rarity 4.** Repaired. Merely 150 to 200 examples are estimated to have survived. Well struck and primarily untuned. A popular date that is tough to find in any grade. The reverse die was likely a leftover one that was engraved in 1798, but with the blundered star count of 14 stars instead of 13. They are arranged in the "Star Cross" pattern with the stars placed in straight lines, and this style was abandoned in mid 1798. Perhaps the blundered star count kept this die on the shelf until near the end of the series, when design changes loomed, and this blundered 14 star reverse die was pressed into service. (PCGS # 7652)

- 2024 1805 NGC graded XF Details BD-1 Rarity 4.** Repaired. Only 1,781 minted with merely 100 to 150 examples estimated to have survived. This rare piece is difficult to come across in any grade. Most of these were melted long ago from the original mintage, today all that remain are in high demand. (PCGS # 7653)

The obverse exhibits subtle toning while the reverse has deep golden sunset hues with traces of magenta appearing towards the periphery. A rare coin in any grade, and this one has much of the original appeal intact. (PCGS # 7654)

1832 CAPPED BUST LEFT

Enlargement

2028 1832 Capped Bust Left SEGS graded MS61 Details Cleaned. Scarce date and type, as all Capped Bust gold from this period suffered from severe melting soon after this one was struck. The price of gold bullion rose to the point that this entire series, and half eagles too, actually were profitable to melt, so by 1834 so little gold was left that finally an adjustment to the planchet weights was authorized. That brought the face value back below the melt value of these gold coins, and after 1834 the new lighter weight coins actually stayed in circulation. However, for these earlier coins there's so few around that is to believe 80 to 100 pieces exist today. This one, although cleaned, faces up quite well and should be considered if you are seeking a high grade yet comparatively affordable example of this elusive type coin. A few light marks are present, but this is to be expected on any coin from this period.
Estimated Value \$6,000 - 7,000

2029 1833 NGC graded AU Details BD-1 Rarity 5. Rim Filing. Only 4,160 minted with merely 60 to 90 coins estimated to have survived. This piece exhibits a significant amount of flashy luster, particularly around the devices. An attractive example that offers a sharp strike as well. (PCGS # 7673)
Estimated Value \$5,000 - 5,500

2030 1839-O. NGC graded AU-53. A light hint of gold tone with decent surfaces and smooth wear on the highest points of the design. The New Orleans branch mint opened in 1838 so this is one of earliest gold coins struck there. This is the final year of the Classic Head design, and interestingly the O mintmark appears above the date. This is the first coin in a long and important run of New Orleans Mint quarter eagles, including both high grade and rarity, certainly something for every quarter eagle specialist! This is an impressive run of New Orleans coins which we are proud to offer to our collectors. Only 17,781 struck. (PCGS # 7701)
Estimated Value \$2,200 - 2,300

\$2.50 Liberty

2031 1840-O. NGC graded AU-55. Nice even gold toning on both sides with slightly deeper gold hues on the uppermost devices. Only 33,580 struck and from that meager beginning a scant 125 or so are known today. The strike is decent, although the left thigh of the eagle shows moderate striking softness, common to this issue. This is one of the finer examples technically, as most fall into the XF-40 to AU-55 range. Finer pieces quickly become prohibitive for most collectors to pursue, especially in any Mint State grade. **Pop 20; 39 finer at NGC.** (PCGS # 7720)
Estimated Value \$2,500 - 2,600

2032 1842-O. NGC graded AU-50. Light even toning on both sides. The 1842-O is one of the tougher New Orleans issues to find at all, especially so in high grade. Furthermore, these usually come poorly struck up, not so here, as Liberty has most of her hair definition and the eagle's thigh is sharper than most seen. Surface quality is attractive with minor scattered nicks from circulation. Only 19,800 struck, and today there are just over 100 known. **Pop 12; 71 finer at NGC.** (PCGS # 7726)
Estimated Value \$1,600 - 1,700

- 2033 1843-O. Small date, crosslet 4. NGC graded AU-55.** Mostly untuned and rather well struck for the commonly seen weak issue. The obverse and reverse show scattered handling marks from circulation, but none are too deep. The mintmark is much larger on 1843-O quarter eagles than seen on the 1840-O or 1842-O coins, and this larger mintmark style continues in use after this year. The 1843-O is the most plentiful issue of the 1840s and these can be obtained in grades above the Choice Mint State level. Despite what the mintage implies, there are still likely fewer than 1,000 of these around today, a small sum when compared with many issues of the 19th Century. (PCGS # 7731)

Estimated Value \$550 - 600

- 2034 1843-O. Large date, plain 4. PCGS graded AU-55. CAC APPROVED** Lovely rich golden toning. This is the second rarest of the New Orleans issues, as the Large Date variety is quite scarce. Most collectors fail to realize just how scarce this issue is until they try to find a nice example. Only 76,000 believed to be struck but based on the number surviving this may be too generous. The website *CoinFacts* estimates that only 85 of these exist in all grades. On the Large Date, the 1 nearly touches both the truncation and the dentils below, also the 4 has a plain crossbar, while on the Small Date, the 4 has a Crosslet 4 with a serif on the end of the horizontal stroke of the 4. A prize for the Coronet quarter eagle specialist! **Pop 8; 22 finer.. (PCGS # 7732)**

- 2035 1844-C. PCGS graded MS-61.** Lovely rich gold toning. The fields are semi-reflective. Examination of Liberty's face finds a couple of old nicks, but they blend into her cheek. The surrounding fields are generally clean and attractive, and this one has a decent strike for an early Charlotte Mint issue. Only 11,622 struck and all Mint State examples are highly prized and of the highest rarity. **Pop 3; 3 finer, 2 in 62, 1 in 63. (PCGS # 7735)**

- 2036 1845-O. NGC graded AU-55.** Frosty and mostly untuned. This issue is a complete contrast to the 1843-O Small Date, first off, only 4,000 were struck, and from that meager start perhaps 75 exist today. Curiously the entire issue of 1845-O quarter eagles was delivered on January 22, 1846 so these were included with the 1846-O coins. The surfaces are pleasing, with bright yellow gold throughout and luster in the protected areas. As nearly always seen on this issue, there is a shallow mint-made depression in the field behind Liberty's neck curls down to the point of the 13th star. Trading is sparse for this issue, and high grade examples like this rarely come to market. It may be years before a comparable coin appears! This issue compares favorably with some of the rarest C and D mint coins, but is priced much lower--for now. When the true rarity of the 1845-O quarter eagle is better understood, expect coins like this to become prohibitive in price. **Pop 8; 11 finer, 10 in 58, 1 in 60. (PCGS # 7739)**

Estimated Value \$8,000 - 8,500

- 2037 1846-O. NGC graded AU-50. CAC APPROVED** Mostly untuned with satiny golden hues throughout. The surfaces are pleasing, as there are minimal handling marks from brief circulation. Rather sharp for this notoriously weak issue, as all of Liberty's curls are full, and only the left leg of the eagle shows minor softness along with his claw below. A tough coin in all grades, with perhaps 175 known today, few seen finer than a low end Mint State grade. Highly collectible and elusive when found this nice. Only 62,000 struck. (PCGS # 7743)

Estimated Value \$800 - 850

- 2038 1847-O. NGC graded AU-58.** Lightly toned and scarce this close to mint state, with most of the known survivors falling well short of the technical quality here. It is important to note that the 1847-O is known as the worst struck New Orleans issue, and this one is actually sharper than many seen despite apparent softness in the legends and eagle. The surfaces are pleasing and clean, and numerous thin die cracks exist on the reverse **Pop 45; 34 finer at NGC. (PCGS # 7747)**

Estimated Value \$1 800 - 1 900

2039 1850-O. PCGS graded AU-50. Interesting pale blue and orange toning on both sides. Only 84,000 minted, from which perhaps 225 pieces exist today. This one is in the top third of those known. Usual soft strike on the eagle, but the surfaces are attractive. **Pop 20; 61 finer. (PCGS # 7758)**
Estimated Value \$800 - 850

2040 1851-O. NGC graded AU-58 PQ. CAC APPROVED Untoned and well struck. This one has the doubled date, with the 51 both showing repunching low. The strike is sharp on the obverse but a bit soft on the reverse, especially on the left thigh of the eagle which is blunt as nearly always seen. Still a scarce issue with no more a tiny fraction of the original mintage surviving. Almost mint state, with ample luster to please the eye. **Pop 109; 43 finer at NGC. (PCGS # 7762)**
Estimated Value \$1,700 - 1,800

2041 1852-O. NGC graded AU-55. Untoned with bright reflective surfaces. Despite its high mintage--relative to other 1852 branch mint coins, the 1852-O is quite a tough date to find in grades approaching mint state. This attractive AU-55 example should please most date and mint specialists. **(PCGS # 7766)**
Estimated Value \$1,100 - 1,200

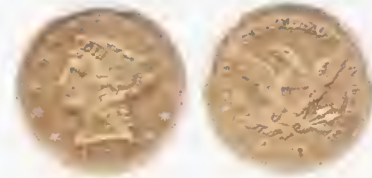

2042 1854-O. NGC graded AU-58. Well struck and lightly toned with semi reflective fields and mint luster evident. Scattered light marks as expected for the grade. **Pop 167; 34 finer. (PCGS # 7772)**
Estimated Value \$600 - 650

2043 1856-O. NGC graded AU-58. Light hints of gold tone with semi-reflective fields. Only 21,100 minted and this is the rarest New Orleans quarter eagle of the 1850s. **Pop 37; 14 finer with 4 in 60, 8 in 61, 2 in 62. (PCGS # 7780)**
Estimated Value \$2,000 - 2,200

2044 1857-O. NGC graded AU-58. Light gold tone with reflective fields. Well struck with just a touch of wear on the high points of the design and the surfaces are satin smooth. Only 34,000 minted. **Pop 93; 50 finer at NGC. (PCGS # 7784)**
Estimated Value \$1,600 - 1,700

2045 1858-C. PCGS graded AU Details, Damage. Nicely toned and still a nice looking coin despite moderate handling marks. Scarce too, with only 9,056 struck. **(PCGS # 7787)**
Estimated Value \$1,400 - 1,500

2046 1860 Type 2. NGC graded AU-58. CAC APPROVED Untoned with reflective fields that show a few light marks from handling. Although 22,563 were struck, today the total number that survive is likely around 200 pieces. This is one of the higher grade examples seen, although a fair number exist in lower Mint State grades. Nice collector quality! **Pop 17; 24 finer.**
Estimated Value \$600 - 650

2047 1904. PCGS graded MS-65. Mostly untoned and well struck with just two minor copper specks, one on each side of this Gem. **(PCGS # 7856)**

\$5 Liberty/No Motto

- 2065 1839. PCGS graded AU-55.** Quite frosty with excellent detail. The surfaces are attractive and show light wear on the uppermost devices only. There are a few trivial circulation marks as expected, even in this high grade. The head of Liberty is distinctly different than that of 1840 and later, with a more sinuous curve to her truncation, which was flattened out considerably in 1840. Thus the 1839 issue should be considered a unique type for this series. Always seen with a raised rust pit on Liberty's neck (behind the neck curl) and another above the 18 on her upper chest, as the die must not have been properly greased prior to coinage. The overdate question makes no sense, and this must simply be repunching on the 9. It is obvious that the Mint would not create a new design in 1838, fail to strike any coins, then overdate that die for the initial production of the new Gobrecht design half eagle! Only 200 examples are estimated to have survived. **Pop 17; 40 finer. (PCGS # 8191)**

Considerable mint frost on the central devices and the fields are quite clean for the grade assigned. Only a handful of these exist in such lofty grades, and the vast majority show more handling and circulation evidence. A regal coin that will be a centerpiece in any advanced set. **Pop 16; 12 finer, 8 in 63, 3 in 64, 1 in 65. (PCGS # 8563)**
Estimated Value \$34,000 - 36,000

\$10 Liberty/No Motto

1839 \$10 LIBERTY. LARGE LETTERS

2088 1839. Large letters. Head of 38. NGC graded AU-55. A hint of tone near the obverse rims. This is the short lived first style with the swept back hair over Liberty's ear and a more sinuous curve on her truncation line above the date. For reasons lost, the master hub was changed and the swept back hair rearranged starting in mid 1839. Hence this is a distinct type coin issued for just parts of two short years! A tiny mark at 12:00 on the obverse is the only feature worthy of note on this high grade, appealing coin. **Pop 18; 41 finer at NGC.**
Estimated Value \$8,000 - 9,000

2089 1849.. Sharpness of Very Fine. Polished. Popular year, 'The Gold Rush of 1849'
Estimated Value \$500 - 550

2090 1850. Small date. NGC graded AU-50. Mostly untuned with average surfaces for the grade. The Small Date variation is much scarcer than the Large Date of this year and was created when the date logotype intended for half eagles was employed on this eagle die. Date digits this small had not been seen on eagles since 1842, making this issue really stand out. **Pop 15; 71 finer. (PCGS # 8604)**
Estimated Value \$1,200 - 1,250

- 2091 1851. PCGS graded EF-40.** Nice orange and golden toning. Housed in an Old Green Holder. (PCGS # 8606)
Estimated Value \$800 - 850

- 2092 1855-O. NGC graded EF-45.** Mostly untoned. A scarce date that is represented by approximately 100 coins today according to *CoinFacts*. That number may be a bit low, but regardless, this is a tough issue to find nice! Only 18,000 struck. **Pop 30; 63 finer at NGC.** (PCGS # 8617)
Estimated Value \$2,000 - 2,200

\$10 Liberty/With Motto

- 2093 1870-S. NGC graded AU Details, Improperly Cleaned.** A scarce date. Only 8,000 struck but the luster is muted from the cleaning. The surfaces are otherwise normal, with scattered light marks from the channels of commerce. Not many of these survive! (PCGS # 8659)
Estimated Value \$2,500 - 2,600

- 2094 1887-S. NGC graded MS-64.** Well struck and light toning. There is one modest reeding mark on Liberty's cheek that probably kept this one from a Gem grade. Appealing and scarce. **Pop 11; 1 finer in 65.** (PCGS # 8711)
Estimated Value \$3,500 - 3,600

- 2095 1891-CC. PCGS graded MS-61.** A nice example with ample luster and some copper gold toning on both sides. The surfaces show the expected bagmarks from handling, and this one likely came back to our shores after spending several decades in Europe in that regions banks as gold reserves. In later years, after World War II many of our gold coins began to return to these shores. If these coins had remained in this country, most if not all would have been melted after 1933 when gold coins were called in. Carson City issues like this are always in high collector demand. (PCGS # 8720)
Estimated Value \$1,400 - 1,500

- 2096 1893. PCGS graded MS-63.** A brilliant golden specimen, quite nice in appearance with strong luster. One notable mark resides on the lower right portion of Liberty's truncation. (PCGS # 8725)

Estimated Value \$900 - 950

GEM 1911 \$10 INDIAN

- 2112 1911. PCGS graded MS-65.** Lovely light golden toning. A nice strike on all the devices. 2118 1874-CC. PCGS graded AU-58. Nice reflective fields on both sides. Only 2,131 examples are estimated to have survived and this is one of the nicer examples, as noted in the figures to follow. Always popular for the Carson City mint-mark. Liberty's face and cheek are satin smooth and show little more than a couple of tiny circulation marks. The reverse has the scarcer Type II design with the denomination noted as TWENTY D. which became spelled out after 1876. A prize for the astute collector! **Pop 63; 18 finer, 8 in 60, 8 in 61, 2 in 62. (PCGS # 8971)**

LOVELY 1855 WASS, MOLITOR & CO. (SAN FRANCISCO) \$10 GOLD

Enlargement

2167 1855 Wass, Molitor & Co. (San Francisco) \$10 Gold. PCGS graded AU-53 PQ. Gold Foil Tag. This is a prized rarity that is seldom available at all. Perhaps 100 or so exist in all grades. The final digit was updated on the obverse die by drilling out the prior digit and inserting a small piece with a 5 in place for the current date. These circulated for a short time but many had likely disappeared by 1857 when the S. S. Central America sunk. A few old tenor coins like this one went along for the ride and were recovered in that historic time capsule. Any territorial gold specialist has to acquire one of these rarities, and they offer an historic link to the early days of the California gold rush and a glimpse into the politics where the Wass, Molitor & Co., firm started production of coins again despite the new San Francisco Mint being opened for over a year. The vast majority of these Wass, Molitor & Co., coins were melted and converted into San Francisco gold conage soon after they entered circulation. Frosty untuned example. SSCA 7280. (**PCGS # 10354**)
Estimated Value \$25,000 - 30,000

This coin is listed in the Guide Book.

This coin comes with a custom hand-hammered copper frame with gold imprinted purple ribbons - modeled after the San Francisco Jeweler's Shreve & Co., for the famous 1915-S Panama-Pacific commemorative coins.
